ASSEMBLY, No. 1455
STATE OF NEW JERSEY
216th LEGISLATURE

DATED: DECEMBER 8, 2015

SUMMARY

Synopsis: Abigail’s Law; requires that newly-manufactured school buses be equipped with sensors.

Type of Impact: Expenditure Increase

Agencies Affected: School Districts

Office of Legislative Services Estimate

Fiscal Impact	<u>Year 1</u>	<u>Year 2</u>	<u>Year 3</u>
Local Cost	Indeterminate Expenditure Increase		

- The Office of Legislative Services (OLS) notes that Assembly Bill No. 1455 would lead to an increase in expenditures by local school districts; however, the magnitude of the increase is unknown. The additional cost of purchasing a school bus associated with the legislation would likely be contingent on the design and installation configurations that would be determined by regulations to be promulgated by the Department of Education, in consultation with the Chief Administrator of the New Jersey Motor Vehicle Commission.
- While the school bus manufacturer would initially incur the additional cost of the sensors, the OLS anticipates the cost would be factored into the purchase price of a school bus and transferred to the school district. The legislation would also likely increase the cost of leasing school buses or the contractual costs of purchasing transportation services.
- Information previously provided by the Department of Education indicates that, depending on the configuration of the sensors, the cost per school bus may range from approximately \$900 to \$1,300.

BILL DESCRIPTION

Assembly Bill No. 1455 of 2014 requires that all school buses manufactured on or after the 180th day following the bill’s enactment be equipped with sensors to alert the bus driver when a child walks in the front or rear of the bus. The bill provides that the design and installation of the

sensor must conform to regulations to be promulgated by the State Board of Education, in consultation with the Chief Administrator of the New Jersey Motor Vehicle Commission.

FISCAL ANALYSIS

EXECUTIVE BRANCH

None received.

OFFICE OF LEGISLATIVE SERVICES

The OLS notes that Assembly Bill No. 1455 would lead to an indeterminate expenditure increase for school districts. While the additional cost would initially be incurred by school bus manufacturers, it is anticipated that the cost of the school bus sensors would be factored into the final purchase price for the new school buses. Similarly, it is likely that the additional cost of the school bus sensors would increase the cost of leasing school buses, as well as the cost of purchasing transportation services from a school bus contractor.

Based on information previously provided by the Department of Education, the cost of a school bus sensor system will vary based on its configuration, and would therefore be contingent on the specifications determined by regulations to be promulgated by the Department of Education, in consultation with the Chief Administrator of the New Jersey Motor Vehicle Commission. The costs of different configurations range from approximately \$900 to \$1,300 per school bus.
