1 trust or other trust device. “Planned real estate development” shall
2 not include or apply to any form of timesharing.

3 ³“Point of utility delivery” means the point at which an electric
4 public utility’s electrical equipment or conductors connects to a
5 customer’s electrical equipment or conductors.³

6 “Residential unit owner” means the owner of record of a
7 residential dwelling unit located within a planned real estate
8 development, or, in the case of a cooperative housing corporation, a
9 shareholder of record owning the shares appurtenant to an
10 individual residential dwelling unit. “Residential unit owner” shall
11 not mean the owner of a commercial unit, space, or interest located
12 within a planned real estate development.

13 b. Notwithstanding the provisions of any law, rule, regulation,
14 or order to the contrary, an electric public utility shall charge a
15 residential rate for service delivered to ¹**[a]** an electric public utility
16 residential¹ customer of record if the ¹residential¹ customer ¹**[is**
17 a residential unit owner within a planned real estate development

23 the residential customer’s premises or upon the premises of the
24 planned real estate development where the ³**[resident]** residential
25 unit owner³ resides.

26 c. Notwithstanding the provisions of any law, rule, regulation,
27 or order to the contrary, an electric public utility shall not charge
28 greater than a residential rate ², or greater than an equivalent
29 electricity rate or load management program that is offered by an
30 electric public utility specifically for residential electric vehicle
31 charging,² for service delivered to a planned real estate
32 development for the use of an electric vehicle charging station
33 which is located upon the premises of the planned real estate
34 development and is intended for the use of ²**[the]** a specific
35 ³**[resident]** residential unit owner³ in² a planned real estate
36 ²**[development’s residents]** development². Notwithstanding the
37 provisions of this subsection, in the event that the planned real

44 rate¹], shall be comparable to those offered by the electric public
45 utility to residential customers receiving basic generation service³.

1 ²d. Nothing in subsection b ³.³ of this section shall prevent a
2 ³planned real estate³ development that has installed an electric
3 vehicle charging station from setting the price of the sale of
4 electricity for the use of its electric vehicle charging equipment
5 provided as a service pursuant to section 10 of P.L.2019, c.362
6 (C.48:25-10).²

7 ³e. An electric public utility, upon the request of an applicant for
8 electric service at a planned real estate development, shall install,
9 up to the point of utility delivery, any distribution infrastructure
10 necessary to facilitate the future installation of an electric vehicle
11 charging station that provides Level 2 charging capability, under
12 rates, terms and conditions as established by the board. Any
13 prudent costs incurred by the electric public utility shall be deemed
14 consistent with the provisions of R.S.48:2-27 governing the
15 extension of public utility facilities, subject to any maximum cost as
16 may be established by the board. The electric public utility shall be
17 entitled to full and timely recovery of all such prudently incurred
18 costs, provided that the cost of any electric vehicle charging station
19 or installation thereof is not included.³

4 **BE IT ENACTED** by the Senate and General Assembly of the State
5 of New Jersey:

6

7 1. a. As used in this section:

8 “Designated parking space” means a parking space that is
9 specifically designated for use by a particular residential unit owner,
10 including, but not limited to, a garage, a deeded parking space, and a
11 parking space in a limited common element that is restricted for use by
12 one or more residential unit owners;

13 “Electric public utility” shall have the same meaning as provided
14 in section 3 of P.L.1999, c.23 (C.48:3-51);

15 “Electric vehicle charging station” means a station that is designed
16 in compliance with the State Uniform Construction Code, adopted
17 pursuant to P.L.1975, c.217 (C.52:27D-119 et seq.), that delivers
18 electricity from a source outside an electric vehicle into one or more

25 which consists of or will consist of, separately owned areas,
26 irrespective of form, be it lots, parcels, units, or interest, which are
27 offered or disposed of pursuant to a common promotional plan, and
28 which provide for common or shared elements or interests in real
29 property, including, but not limited to, property subject to the
30 "Condominium Act," P.L.1969, c.257 (C.46:8B-1 et seq.), any form of
31 homeowners' association, housing cooperative, or community trust or
32 other trust device. “Planned real estate development” shall not include
33 or apply to any form of timesharing.

34 “Residential unit owner” means the owner of record of a
35 residential dwelling unit located within a planned real estate
36 development, or, in the case of a cooperative housing corporation, a
37 shareholder of record owning the shares appurtenant to an individual
38 residential dwelling unit. “Residential unit owner” shall not mean the
39 owner of a commercial unit, space, or interest located within a planned
40 real estate development.

41 b. Notwithstanding the provisions of any law, rule, regulation, or
42 order to the contrary, an electric public utility shall charge a residential
43 rate for service delivered to a customer of record if the customer is a
44 residential unit owner within a planned real estate development who
45 uses an electric vehicle charging station at a designated parking space
46 within that development. That customer shall be prohibited from
47 selling electricity in any capacity from the electric vehicle charging
48 station at that designated parking space within that development.

11 within that development. The bill prohibits that customer from
12 selling electricity in any capacity from the electric vehicle charging
13 station at the designated parking space within the development.

ASSEMBLY TELECOMMUNICATIONS AND UTILITIES
COMMITTEE

STATEMENT TO
ASSEMBLY, No. 2360

with committee amendments

STATE OF NEW JERSEY

DATED: DECEMBER 10, 2020

The Assembly Telecommunications and Utilities Committee reports favorably and with committee amendments Assembly Bill No. 2360.

As amended and reported, this bill requires an electric public utility (utility) to charge a residential rate for service delivered to a residential utility customer of record (customer) if the customer uses an electric vehicle charging station (charging station) at a designated parking space located at the customer's premises or upon the premises of the planned real estate development (development) where the customer resides.

The bill prohibits a utility from charging greater than a residential rate for service delivered to a development for the use of a charging station located at the development intended for the use of the development's residents. However, in the event that the development has a contract for the purchase of electricity from a party other than the utility serving the development, the utility may charge the development an agreed upon rate.

COMMITTEE AMENDMENTS:

The committee amended the bill to:

- 1) expand the requirement that a utility is to charge a residential rate for service delivered to a customer if the customer uses a charging station located at the residential customer's premises;
- 2) remove the prohibition on a residential customer selling electricity in any capacity from the charging station at a designated parking space within the development; and
- 3) prohibit a utility from charging greater than a residential rate for service delivered to a charging station at the development, unless the development has a contract for the purchase of electricity from a party other than the utility serving the development, whereupon the utility may charge the development an agreed upon rate.

SENATE ENVIRONMENT AND ENERGY COMMITTEE

STATEMENT TO

[Second Reprint]

ASSEMBLY, No. 2360

STATE OF NEW JERSEY

DATED: DECEMBER 9, 2021

The Senate Environment and Energy Committee favorably reports Assembly Bill No. 2360 (2R).

This bill requires an electric public utility (utility) to charge a residential rate for service delivered to a residential utility customer of record (customer) if the customer uses an electric vehicle charging station (charging station) at a designated parking space located at the customer's premises or upon the premises of the planned real estate development (development) where the customer resides.

The bill also prohibits a utility from charging greater than a residential rate, or greater than an equivalent electricity rate or load management program that is offered by an electric public utility specifically for residential electric vehicle charging, for service delivered to a development for the use of a charging station located at the development intended for the use of a specific resident in the development. However, in the event that the development has a contract for the purchase of electricity from a party other than the utility serving the development, the utility may charge the development an agreed upon rate.

The bill's provisions would not prevent a development that has installed an electric vehicle charging station from setting the price of the sale of electricity for the use of its electric vehicle charging equipment provided as a service pursuant to section 10 of P.L.2019, c.362 (C.48:25-10).

STATEMENT TO
[First Reprint]
ASSEMBLY, No. 2360

with Assembly Floor Amendments
(Proposed by Assemblywoman CHAPARRO)

ADOPTED: MAY 20, 2021

These floor amendments: 1) prohibit an electric public utility (utility) from charging greater than a residential rate, or greater than an equivalent electricity rate or load management program that is offered by the utility specifically for residential electric vehicle (EV) charging, for service intended for the use of a specific resident in a planned real estate development (development); 2) provide that the bill does not prevent a development that has installed an EV charging station from setting the price of the sale of electricity for the use of its EV charging equipment provided as a service; and 3) makes clarifications to two defined terms in the bill.

STATEMENT TO
[Second Reprint]
ASSEMBLY, No. 2360

with Senate Floor Amendments
(Proposed by Senator GREENSTEIN)

ADOPTED: DECEMBER 20, 2021

These floor amendments would:

- 1) add a definition of "point of utility deliver" to the bill;
- 2) provide that the bill's provisions would apply only to residential unit owners, as defined by the bill, rather than to all residential customers in planned real estate developments;
- 3) provide that, for planned real estate developments that purchase electric commodity service from a third-party supplier, utilities would be required to offer comparable distribution charges to those offered to residential customers who receive basic generation service, rather than any agreed upon rate;
- 4) require utilities to cover the costs of certain electrical infrastructure modifications necessary for the installation of an electric vehicle charging station that provides Level 2 charging capability, under rates, terms and conditions established by the Board of Public Utilities (BPU), upon request from an applicant for electric service at a planned real estate development. Utilities would be entitled to a full and timely recovery of all such costs, and the BPU would be authorized to establish a maximum cost to be paid by utilities;
- 5) provide the bill would remain inoperative for 120 days after enactment, rather than 60 days; and
- 6) make technical and clarifying changes to the bill's language.

40 not mean the owner of a commercial unit, space, or interest located
41 within a planned real estate development.

42 b. Notwithstanding the provisions of any law, rule, regulation,
43 or order to the contrary, an electric public utility shall charge a
44 residential rate for service delivered to an electric public utility
45 residential customer of record if the residential customer uses an
46 electric vehicle charging station at a designated parking space
47 located at the residential customer’s premises or upon the premises
48 of the planned real estate development where the resident resides.

1 c. Notwithstanding the provisions of any law, rule, regulation,
2 or order to the contrary, an electric public utility shall not charge
3 greater than a residential rate for service delivered to a planned real
4 estate development for the use of an electric vehicle charging
5 station which is located upon the premises of the planned real estate

SENATE ENVIRONMENT AND ENERGY COMMITTEE

STATEMENT TO

SENATE, No. 3285

STATE OF NEW JERSEY

DATED: DECEMBER 9, 2021

The Senate Environment and Energy Committee favorably reports Senate Bill No. 3285.

This bill requires an electric public utility (utility) to charge a residential rate for service delivered to a utility residential customer of record if the residential customer uses an electric vehicle charging station at a designated parking space located at the residential customer's premises or upon the premises of the planned real estate development (development) where the resident resides. The bill prohibits a utility from charging greater than a residential rate for service delivered to a development for the use of an electric vehicle charging station which is located upon the premises of the development and is intended for the use of the development's residents. However, in the event that the development has a contract for the purchase of electricity from a party other than the utility serving the development, the utility may charge the development the agreed upon rate.

STATEMENT TO
SENATE, No. 3285

with Senate Floor Amendments
(Proposed by Senator GREENSTEIN)

ADOPTED: DECEMBER 20, 2021

These floor amendments would:

1) clarify the definitions of “designated parking space” and “electric vehicle charging station,” and add a definition of “point of utility deliver” to the bill;

2) provide that the bill's provisions would apply only to residential unit owners, as defined by the bill, rather than to all residential customers in planned real estate developments;

3) prohibit a utility from charging greater than a residential rate, or greater than an equivalent electricity rate or load management program that is offered by the utility specifically for residential electric vehicle (EV) charging, for service intended for the use of a specific residential customer in a planned real estate development;

4) provide that, for planned real estate developments that purchase electric commodity service from a third-party supplier, utilities would be required to offer comparable distribution charges to those offered to residential customers who receive basic generation service, rather than any agreed upon rate;

5) provide that the bill does not prevent a planned real estate development that has installed an EV charging station from setting the price of the sale of electricity for the use of its EV charging equipment provided as a service;

6) require utilities to cover the costs of certain electrical infrastructure modifications necessary for the installation of an EV charging station that provides Level 2 charging capability, under rates, terms and conditions established by the Board of Public Utilities (BPU), upon request from an applicant for electric service at a planned real estate development. Utilities would be entitled to a full and timely recovery of all such costs, and the BPU would be authorized to establish a maximum cost to be paid by utilities;

7) provide the bill would remain inoperative for 120 days after enactment, rather than 60 days; and

8) make technical and clarifying changes to the bill's language.
