|----------------------------|---------------|---------------|---------------|
| State Cost Increase | | Indeterminate | |
| Local Cost Increase | | Indeterminate | |

- This Office of Legislative Services (OLS) finds the bill would result in an indeterminate increase in annual costs for health care benefits provided by the State and local governments as public employers. The bill would impact the State Health Benefits Program (SHBP) and, therefore, would result in expenditure increases for the State and local governments that participate in the SHBP. It would also impact other health care benefits plans or programs offered by local governments that do not participate in the SHBP and would result in annual expenditure increases for these entities.
- The additional cost for the coverage required by this bill would depend on the specifics of each plan or program, the plan or program selected by each firefighter, the type of coverage (e.g. single, member/spouse, family), the annual premium, and the amount of contribution made by each firefighter as a public employee toward that cost.

BILL DESCRIPTION

This bill mandates access to cancer screenings for full-time paid firefighters in this State. The bill includes screenings for colon, lung, bladder, oral, thyroid, skin, blood, breast, cervical, testicular, and prostate cancers. The first screening will take place within the first three years of employment and a firefighter is then entitled to a screening every three years thereafter.

All costs associated with screenings provided under this bill will be borne by the firefighter's health care benefits plan or program provided by the firefighter's employer, including a plan or program through the State Health Benefits Program, an insurance fund, joint insurance fund, or in any other manner. No co-payment, deductible, coinsurance, or any out-of-pocket expense will be required for such examinations.

The bill will take effect immediately.
