3

4 **BE IT ENACTED** *by the Senate and General Assembly of the State*
5 *of New Jersey:*

6

7 1. The Commissioner of Health shall gather and compile
8 information necessary to develop a New Jersey Report Card of
9 Hospital Maternity Care, as provided for in this act. The report
10 card, which shall be updated annually and made available on the
11 website of the Department of Health, shall be designed to inform
12 members of the public about maternity care provided in each
13 general hospital licensed pursuant to P.L.1971, c.136 (C.26:2H-1 et
14 seq.), so that a member of the public is able to make an informed
15 comparison.

16

17 2. For each hospital, the report card shall include:

- 18 a. the number of vaginal deliveries performed;
19 b. the number of cesarean deliveries performed; and
20 c. the rate of complications experienced by a patient receiving
21 maternity care:

22 (1) for a vaginal delivery, which shall include the rate of
23 maternal hemorrhage, laceration, infection, or other complication as
24 prescribed by the Commissioner of Health; and

25 (2) for a cesarean delivery, which shall include the rate of
26 maternal hemorrhage, infection, operative complication, or other
27 complication as prescribed by the Commissioner of Health.

28

29 3. Notwithstanding the provisions of section 2 of this act to the
30 contrary, the commissioner shall revise or add complications or
31 other factors to be included in the report card based on maternal
32 quality indicators as may be recommended by the American
33 Congress of Obstetricians and Gynecologists.

38 **STATEMENT**

39

40 This bill requires the Commissioner of Health to gather and
41 compile information necessary to develop a New Jersey Report
42 Card of Hospital Maternity Care. The report card is to be designed

1 to inform members of the public about maternity care provided by
2 each general hospital licensed pursuant to P.L.1971,
3 c.136 (C.26:2H-1 et seq.), and would be made available on the
4 website of the Department of Health and updated annually.

5 For each hospital, the report card is to include the number of
6 vaginal deliveries performed, the number of cesarean deliveries
7 performed, and the rates of certain complications listed in the bill,
8 based on the type of delivery.

9 The bill also provides that the commissioner is to revise or add
10 factors to be included in the report card based on maternal quality
11 indicators as may be recommended by the American Congress of
12 Obstetricians and Gynecologists.

13 According to an article in the August 2014 edition of the
14 magazine Health Affairs, the rate of obstetrical complications varies
15 across hospitals. This bill is intended to help families select a
16 hospital based on information about maternity care at hospitals in
17 the State.

ASSEMBLY WOMEN AND CHILDREN COMMITTEE

STATEMENT TO

ASSEMBLY, No. 2366

STATE OF NEW JERSEY

DATED: MARCH 12, 2018

The Assembly Women and Children Committee reports favorably Assembly Bill No. 2366.

This bill requires the Commissioner of Health to gather and compile information necessary to develop a New Jersey Report Card of Hospital Maternity Care. The report card is to be designed to inform members of the public about maternity care provided by each general hospital licensed pursuant to P.L.1971, c.136 (C.26:2H-1 et seq.), and would be made available on the website of the Department of Health and updated annually.

For each hospital, the report card is to include the number of vaginal deliveries performed, the number of cesarean deliveries performed, and the rates of certain complications listed in the bill, based on the type of delivery.

The bill also provides that the commissioner is to revise or add factors to be included in the report card based on maternal quality indicators as may be recommended by the American Congress of Obstetricians and Gynecologists.

According to an article in the August 2014 edition of the magazine Health Affairs, the rate of obstetrical complications varies across hospitals. This bill is intended to help families select a hospital based on information about maternity care at hospitals in the State.

SENATE BUDGET AND APPROPRIATIONS COMMITTEE

STATEMENT TO

ASSEMBLY, No. 2366

STATE OF NEW JERSEY

DATED: JUNE 11, 2018

The Senate Budget and Appropriations Committee reports favorably Assembly Bill No. 2366.

This bill requires the Commissioner of Health to gather and compile information necessary to develop a New Jersey Report Card of Hospital Maternity Care. The report card is to be designed to inform members of the public about maternity care provided by each general hospital licensed pursuant to P.L.1971, c.136 (C.26:2H-1 et seq.), made available on the website of the Department of Health, and updated annually.

For each hospital, the report card is to include the number of vaginal deliveries performed, the number of cesarean deliveries performed, and the rates of certain complications listed in the bill, based on the type of delivery.

The bill provides that the commissioner is to revise or add factors to be included in the report card based on maternal quality indicators as may be recommended by the American Congress of Obstetricians and Gynecologists.

As reported, this bill is identical to Senate Bill No. 1786, as also reported by the committee.

FISCAL IMPACT:

The Office of Legislative Services (OLS) concludes that the bill, by requiring the Commissioner of Health to establish and maintain a New Jersey Report Card of Hospital Maternity Care, will increase expenditures by the Department of Health (DOH). However, without information from the Executive, the OLS cannot quantify these costs. It may be possible for the DOH to track this data within an existing system, such as the New Jersey Hospital Performance Report, thereby minimizing development costs. The ongoing maintenance of the report card could likely be performed at no marginal cost to the department's current operating budget.

BILL DESCRIPTION

The bill requires the Commissioner of Health to gather and compile information necessary to develop a New Jersey Report Card of Hospital Maternity Care. The report card is to be designed to inform members of the public about maternity care provided by each general hospital licensed pursuant to P.L.1971, c.136 (C.26:2H-1 et seq.), and would be made available on the website of the DOH and updated annually.

OFFICE OF LEGISLATIVE SERVICES

The OLS concludes that the bill, by requiring the DOH to establish and maintain a New Jersey Report Card of Hospital Maternity Care, will increase expenditures by the department. However, without information from the Executive, the OLS cannot quantify these costs. It may be possible for the DOH to track this data within an existing system, such as the New Jersey Hospital Performance Report, thereby minimizing development costs. The ongoing maintenance of the report card could likely be performed at no marginal cost to the department's current operating budget.

The New Jersey Hospital Performance Report is annually issued by the commissioner and measures the performance of general hospitals in the State with respect to process quality indicators and health care facility-associated infection among patients. Like the New Jersey Report Card of Hospital Maternity Care, as outlined in the bill, the New Jersey Hospital Performance Report is intended to help consumers make decisions regarding healthcare. Furthermore, the New Jersey Hospital Performance Report currently publishes data regarding obstetric trauma in vaginal deliveries, which is similar to certain data required to be compiled by the commissioner under the bill.
