AN ACT concerning the public system of higher education, revising various parts of the statutory law, and supplementing Title 18A of the New Jersey Statutes.

BE IT ENACTED by the Senate and General Assembly of the State of New Jersey:

1. (New section) This act shall be known and may be cited as the “New Jersey Medical and Health Sciences Education Restructuring Act.”

'2. (New section) The Legislature finds and declares that:

a. Rutgers, The State University (“Rutgers”), is a body corporate and politic that operates schools and colleges in the State of New Jersey and offers degrees in undergraduate studies, graduate studies, and professional studies such as medical, legal and business, operating pursuant to the authority granted to it by the Rutgers, the state university law, P.L.1956, c.61;

b. Rutgers was designated as the State university in 1945, but it was not until 1956 under the Rutgers Compact that the State assumed managerial control and financial responsibility over the school. Upon reorganization in 1956, Rutgers’ formerly private governing board – the Board of Trustees – transferred all management, control, administration and policy-making functions to the publicly controlled Board of Governors. The Board of Trustees retained the power to manage and invest certain pre-1956 private assets or private gifts and maintained an advisory role at the school in support of the University;

c. Rutgers was established as the “instrumentality of the state for the purpose of operating the state university” and whose primary purpose is as a public trust for the provision of higher education pursuant to N.J.S.18A:65-2. To this end, the law provided for its liberal construction “necessary for the welfare of the state and the people of New Jersey to provide for the development of public higher education in the state and thereby to increase the efficiency of the public school system of the state…” Rutgers is the only comprehensive public research university in New Jersey and currently consists of three campuses in New Brunswick, Newark, and Camden;

d. The University of Medicine and Dentistry of New Jersey (“UMDNJ”) is a body corporate and politic that operates programs of medical, dental, nursing, public health and health-related professions and health sciences education in the State of New Jersey, currently operating pursuant to the authority granted to it by

the “Medical and Dental Education Act of 1970,” P.L.1970, c.102, and “The University of Medicine and Dentistry of New Jersey Flexibility Act of 1992,” P.L.1992, c.84. One of its founding institutions was the former Rutgers Medical School. UMDNJ was established to serve the interests of the State by establishing programs of medical, dental, nursing, public health, health sciences and health-related professions. It was charged with providing a greater number of trained medical personnel to assist in staffing hospitals and public institutions and agencies and to prepare a greater number of students for the general practice of health-related professions in New Jersey. To that end UMDNJ was provided authority to form relationships with health care organizations, research institutions and private individuals, firms and corporations. Such public-private relationships would supplement the resources available from the State, thereby providing an economic and efficient means for developing and offering a full range of health care services;

e. It is the intent of this legislation to recognize and maintain the spirit and intent of the “Agreements Reached Between Community and Government Negotiators Regarding New Jersey College of Medicine and Dentistry and Related Matters of April 30, 1968”;

f. Currently, UMDNJ operates two allopathic medical schools in the State of New Jersey: one located in Newark (New Jersey Medical School) and the other located in New Brunswick/Piscataway (Robert Wood Johnson Medical School). In addition, UMDNJ operates an osteopathic medical school at Stratford, New Jersey. There are no other osteopathic medical schools located in the State;

g. The University of Medicine and Dentistry of New Jersey-School of Osteopathic Medicine (“UMDNJ-SOM”) is a major source of primary care physicians for the State and South Jersey. The school offers several post-graduate residency and fellowship positions for approximately 600 students through affiliate hospitals including endocrinology, cardiology, critical care, gastroenterology, nephrology, infectious disease, and many others. UMDNJ-SOM is at the forefront of addressing the need for more physicians and has expanded its class size by 50% over the past two years. Of the more than 1,700 graduates of UMDNJ-SOM, 55% practice in the State, about half of whom deliver primary care;

h. Rowan University (“Rowan”) is a State university located in Glassboro, New Jersey, with a campus in Camden, New Jersey, currently operating pursuant to the authority granted to State colleges by N.J.S.18A:64-1 et seq., and P.L.1994, c.48 (C.18A:3B-1 et seq.). Rowan is presently considered a major regional higher education institution. Currently it is comprised of seven academic colleges: Business, Communication, Education, Engineering, Fine & Performing Arts, Liberal Arts & Sciences, and the College of
Professional and Continuing Education, and a Graduate School.
Rowan’s nearly 11,000 students may pursue degrees in 36
undergraduate majors, seven teacher certification programs, 26
master’s degree programs and a doctorate in educational leadership. Rowan University’s main campus is located just 20 miles from
Cooper University Hospital with a satellite campus in Camden. Rowan University has a reputation as a top regional university and
is home to a newly-constructed, state-of-the-art science building for
programs focusing on science and technology:

i. 20 years ago, Hank and Betty Rowan gave the former
Glassboro State College a gift of $100 million, then the largest
private gift to a public university in the United States. Thereafter, in
addition to increasing capacity and quality throughout all the
programs of the university, Rowan University created an
engineering school which has quickly become one of the top-rated
undergraduate engineering schools in the country with rankings of
3rd in the country for chemical engineering and 16th overall for
public engineering schools. In addition, the engineering school has
led the way in developing relationships in southern New Jersey with
the private business community, providing a qualified workforce as
an attraction for companies to locate in the area. The gift
transformed the college into a comprehensive regional university
which is poised to take the next step as a research institution;

j. In June 2009, Rowan University and The Cooper Health
System partnered to establish Cooper Medical School of Rowan
University (CMSRU), the first new medical school in New Jersey in
30 years. The establishment of CMSRU, a four-year medical school
located in Camden, will help address the current local and national
shortage of physicians and improve healthcare throughout the
region. Its inaugural class will begin in August 2012;

k. The goals of this legislation are to create and enhance the
essential higher education opportunities for the residents of the
State and to create vibrant educational institutions and communities
that attract business to the State and which will allow the State to
retain its residents in terms of college placement and workforce.
The future economic development of the country will be a
knowledge-based economy which will put a premium on an
educated workforce and advanced degrees. This legislation
restructures the higher education system in the State to provide for
more vigorous educational communities that will provide
opportunities for students and the workforce necessary to attract
crucial private sector jobs as this century unfolds;

l. The Legislature has the ultimate responsibility for balancing
the functions of public higher education institutions in New Jersey. The State has a responsibility for improving and expanding higher
education opportunities for its residents and in that regard it has
established a multi-level higher education system for which it has
the responsibility to assess from time-to-time and to restructure as
needed to improve higher education opportunities. This legislation reflects a thorough and intense review of the higher education system in the State and makes rational changes the Legislature believes are necessary to provide residents with access to a high-quality in-State education. Higher education is vital for a thriving economy because our State’s sophisticated economy -- home to many pharmaceutical, biological science and other complex industries -- demands a well-trained workforce;

m. This legislation also renews the State’s commitment to sustaining and growing its universities and to help them achieve greater success on the national and international stage. New Jersey must stem the persistent historical fact of seeing its brightest high school students leave the State to attend college, and then not return after college. As a State, we lead the nation in net out-migration of college-bound students. This out-migration of students leads to the out-migration of a well-trained workforce and prevents the State from attracting crucial private sector jobs. This legislation will allow for the development of a system to cultivate better collaboration between its businesses and its institutions of higher education. New Jersey’s economy will benefit from increased and integrated coordination between public and private research;

n. For the State’s students to receive the quality higher education necessary for future growth and for the State to achieve its economic goals, Rutgers, as the State’s preeminent institution of higher education, for all that it has achieved in its history, must become a great university and enter the top tier of public research universities. To this end, the relationship between Rutgers and the State has evolved to meet changing times, from 1770 when it was chartered as Queen’s College, through several amendments to the charter in the late 1700’s, to amending the charter in 1825 to change the name of the school to Rutgers University, to the 1945 legislation declaring Rutgers as the state university of New Jersey, to the 1956 Compact whereby the Board of Trustees of Rutgers ceded management and operational control of the school to the State in the form of the Board of Governors in return for substantial financial assistance, and to the subsequent amendments to the Rutgers Compact in 1967, 1970, 1988 and 1994. The Legislature has an obligation to the State and its students to ensure the relationship is still working and thriving. As evidenced by the storied past between the State and Rutgers, the Legislature has periodically examined the role of Rutgers in the State’s higher education system and made necessary legislative changes to that relationship to reflect and address the evolving educational needs of the State;

o. As the relationship with Rutgers has evolved, the State has become more involved both financially and in creating a growing higher education system for its residents. The State has provided in excess of $10 billion in support to Rutgers since fiscal year 1990 for
its operations as The State University of New Jersey and the State
has a responsibility to ensure its funding is leading to greater higher
education opportunities and jobs;

p. There has been widespread recognition for some time that
Rutgers needs to take steps with the State’s assistance to transform
it from a middle- to a first-ranked public institution. In the last
decade, an intense discussion about how to elevate Rutgers into a
top-tier school has taken place in the State, starting with the
Vagelos Report in 2002 and 2004, the Kean Report in 2010 and the
Barer Report in 2012. These reports reflect that Rutgers’ role in the
State’s system of higher education has been the subject of intense
scrutiny and debate. This legislation is the product and culmination
of this decade-long assessment of Rutgers’ educational mission;

q. This legislation continues Rutgers as The State University of
New Jersey and the pre-eminent governance role of its Board of
Governor’s as a public body. The legislation mandates that the
Board of Governors shall continue to have authority over the
granting of tenure and promotions, establishing standards for
academic programs and for the awarding of tenure to faculty at its
Newark and Camden campuses. The Board of Governors shall be
represented on the Rutgers-Camden Board of 
Directors, and additionally, the Rutgers-Camden Board of

r. The legislation fulfills the longstanding goal of Rutgers
University to acquire a medical school and become a
comprehensive public research university. Rutgers has long sought
to regain a medical school as part of its curriculum; by Rutgers own
public statements, acquiring a medical school will propel Rutgers
into a top-tier research university, and place it at or near the top 20
public universities in the nation. Very few great research
universities lack a medical school. This legislation will provide for
the transfer of the Newark-based UMDNJ schools (New Jersey
Medical School, the New Jersey Dental School, School of Health
Related Professions, the School of Nursing, and the Public Health
Research Institute) to Rutgers and will transfer UMDNJ’s Robert
Wood Johnson Medical School located in New Brunswick to
Rutgers as well. These institutions are valued at an excess of $895.5
million dollars;

s. Rutgers currently falls behind other public research
universities in some key measures. Most importantly, the school
ranked 64th in 2009 in federally-financed research and development expenditures. This low ranking is primarily influenced by the lack of a medical school as part of the degree offerings at Rutgers. Having medical schools will attract top-flight researchers and thus research grants. to Rutgers. The addition of medical schools to Rutgers will also increase interdisciplinary opportunities among the academic departments of the school.

The need to reform medical education in the State has been a subject discussed for years but up until now has been left unresolved. The reports done in the past ten years have consistently come to the same conclusion regarding UMDNJ. The Barer Report noted that the present organization of UMDNJ’s substantial assets is not the best structure to maximize the effectiveness of the State’s investment in medical, dental, nursing and health sciences education, associated research and health care. The State is the home base for many of the world’s largest pharmaceutical and biotechnical companies. As such, the State and its institutions of higher education should, but do not, lead the country in attracting federal research funding and associated clinical training. This legislation will address these issues and establish a first-class comprehensive public research university-based health science center in New Jersey through the transfer of the New Jersey Medical School and Robert Wood Johnson Medical School into Rutgers;

Historically, the State has suffered a shortage of higher education capacity resulting in the substantial outmigration from the State of college-bound students. This outmigration has disproportionately affected the residents of the fastest growing region in the State, South Jersey. It is in the public interest that senior public education institutions in South Jersey work together to meet the demand for higher education capacity in the region. These transfers are essential to ensuring that all of the State’s capable high school graduates are provided with the opportunity to obtain higher education in a New Jersey college classroom. The guarantee of a quality in-State education requires that these transfers be made in a comprehensive fashion to better enable the State to meet its growing workforce development needs;

This essential and practical expansion of the State’s higher education system will help to address the educational demands of the fastest growing region in the State. The coordination of Rutgers-Camden and Rowan will spur the redevelopment of Camden by creating a long overdue residential campus, and expanding a health sciences campus anchored by the new Cooper Medical School of Rowan University, emphasizing the biosciences, biomedical engineering, nursing and allied health. Therefore, it is in the public interest that Rutgers-Camden be granted autonomy from Rutgers, that Rowan be declared a public research university, and that both schools work together with the newly formed Rowan University-
Rutgers Camden Board of Governors, as an efficient and cost-effective means to address an historical disparity in educational capacity and opportunity between the northern and southern regions of New Jersey;

w. Integrating these existing higher education institutions will increase research capacity and spur the continued vitality of a region that is no longer supported by historical strengths in manufacturing and agriculture. Furthermore, this legislation will help to stop the annual escape to other states of thousands of students and patients, and millions in clinical research investment dollars from key institutions in South Jersey;

x. The transfer of UMDNJ-SOM to Rowan University will allow better coordination of medical education in South Jersey. UMDNJ-SOM is ranked in the top three osteopathic schools in the country, and is a leader in providing primary care physicians for the southern region of the State. After the transfer, Rowan University would have the important distinction of being only the second full-purpose university in the country to have both an osteopathic and allopathic medical school. One stated goal of the Rowan University-Rutgers University-Camden Board of Governors is to create a joint health sciences college. The addition of UMDNJ-SOM into Rowan University will benefit its faculty through providing opportunities for diverse training to students through interdisciplinary teaching and collaboration with the newly created health sciences faculty from the other universities. Integrating UMDNJ-SOM with Rowan University would add a successful, recognized enterprise to the newly designated public research university;

y. Adding UMDNJ-SOM to Rowan, along with the new Cooper Medical School of Rowan University, will revitalize the regional economy through a renewed commitment to higher education. This legislation will allow Rowan University to build the capacity to compete for and receive federal and private sector research grants that will drive the university, the region, and its new medical school, to new distinction;

z. Currently, Newark is home to many institutions of higher education including Rutgers, the University of Medicine and Dentistry of New Jersey, Seton Hall University School of Law, New Jersey Institute of Technology, Essex County College and Berkeley College. The existing educational infrastructure needs to be able to do even more to help the city and the northern region of the State with its economic development needs and to provide innovative and problem-solving leadership. This legislation will allow Rutgers University-Newark to focus on the specific higher education needs of the region and the assets of the region to attract talented students and accomplished faculty to the school. This legislation will provide for an independent University Hospital that will maintain its status as the principal teaching hospital of the New Jersey Medical School, New Jersey Dental School and any other
The stated goal of this legislation is to create vibrant educational institutions and communities that will not only attract students but attract private sector jobs. The increased attention to the Rutgers University-Newark campus and University Hospital will allow the city to derive not only significant financial, medical and educational benefits, but cultural and social benefits as well. The improved focus on the Newark campus will be a conduit for expanding commercial opportunities in the city and for providing greater opportunities for students in the northern region to benefit fully from the substantial public investments already made and to be made in higher education in Newark;

The goal of this legislation is to enhance the critical higher education opportunities for the residents of the State and to create vibrant educational institutions and communities that will attract business to the State and will allow the State to retain its residents in terms of college placement and workforce. This legislation recognizes the State’s public institutions of higher education must work together as an integrated whole and thus provides for the necessary restructuring of the higher education system in the State which will provide more vigorous educational communities that will spur opportunities for students and the workforce necessary to attract crucial private sector jobs;

The higher education reform and restructuring reflected in this legislation renews the State’s commitment to sustaining and growing its universities and in helping them to achieve greater success. More particularly, the legislation reaffirms the State’s economic commitment to Rutgers – over $10 billion to the University since 1990 – by the transfer of medical and related schools to Rutgers valued in excess of nearly $1 billion dollars. Additionally, this legislation reaffirms Rutgers’ preeminent role in the State’s higher education system serving as an instrumentality of the State in trust for its betterment;

This comprehensive review and restructuring of the higher education institutions and the systems that serve them as evidenced by this act, dictate that all of the schools, institutions and centers, transferred pursuant to this act, be transferred together and that no transfer of a school, institution or center may be done apart from the whole. The transfers reflected in this legislation are inextricably linked and work together to promote reform and the effective restructuring of the State’s higher education system;

The State has determined that the establishment of a comprehensive regional educational and research system in southern New Jersey combining the resources of Rutgers-Camden and Rowan University in the City of Camden (the "Regional University System") will promote the best interests of the residents of the State of New Jersey and will serve to further the mission of
education and research for the State of New Jersey;

ff. The State has determined that the separation of Rutgers-Camden from the larger university system of Rutgers University ("Rutgers University" or the "University") and the incorporation thereof into the Regional University System shall serve to further the goals of promoting the core educational and research goals of the State of New Jersey and, in particular, the mission of both the University and the Regional University System;

gg. The State has further determined that the utilization by the Regional University System of the assets of the University constituting the Rutgers-Camden campus is a valid, prudent and appropriate use of such assets of the University under the circumstances;

hh. As a result of the redefining of the mission the University through the realignment of the Rutgers Camden campus into the new Regional University System, the educational mission of the University has correspondingly been redefined such that the assets of the Rutgers Camden campus will no longer be independently necessary or useful to the needs of the University, will no longer be necessary or useful for the successful fiscal or educational operation of the University as a whole and the use of assets by the Regional University System will not in any way impair the standards by which the University is governed or operated;

ii. The Legislature finds that the leasing of the Rutgers-Camden campus by the Rutgers University Board of Governors to the Rutgers University-Camden Board of Trustees is appropriate. The Legislature further finds that the Rutgers-Camden campus is no longer needed in connection with needs of Rutgers University, as the Rutgers University-Camden Board of Trustees will be responsible for the principal administration of the Camden campus and under the terms of the lease agreement will make lease payments to the Rutgers University Board of Governors in an amount equal to any debt service directly related to the facilities and property on the Camden campus, which lease payments may be utilized by the Rutgers University Board of Governors for any of its legally authorized purposes. Nonetheless, the Board of Governors of Rutgers University does maintain significant administrative oversight of the academic standards of the Rutgers Camden campus.

The Legislature finds that this act does not in any way default, hinder or impair any contract as they currently exist; and

jj. Nothing is intended to revise or nullify the rights of Rutgers, The State University under N.J.S.18A:65-1 et seq.¹

¹ [2.] 3.¹ (New section) a. (pending before the Legislature as this bill), in the case of Rowan University; and N.J.S.18A:64A-1 et seq., in the case of the county colleges; shall apply to any contracts awarded pursuant to this section to the extent that the provisions of such law are not inconsistent with any provision of this section.

In the case of Rutgers, the State University, references in this section to the board of trustees shall mean the Rutgers board of governors.

b. (1) To be eligible to enter into an energy savings services contract, an energy services company shall be a commercial entity that is qualified to provide energy savings services in accordance with the provisions of this section. A public institution of higher education may enter into an energy savings services contract through public advertising for bids and the receipt of bids therefor.

(2) (a) Public works activities performed under an energy savings improvement program shall be subject to all requirements regarding public bidding, bid security, performance guarantees,
insurance and other public contracting requirements that are applicable to public works contracts, to the extent not inconsistent with this section. A general contractor, energy services company serving as general contractor, or any subcontractor hired for the furnishing of plumbing and gas fitting and all kindred work, and of steam and hot water heating and ventilating apparatus, steam power plants and kindred work, and electrical work, structural steel and ornamental iron work, shall be classified by the Division of Property Management and Construction in the Department of the Treasury in order to perform public works activities under an energy savings improvement program.

(b) Individuals or organizations performing energy audits, acting as commissioning agents, or conducting verification of energy savings plans, implementation of energy conservation measures, or verifying guarantees shall be prequalified by the Division of Property Management and Construction in the Department of the Treasury to perform their work under an energy savings improvement program.

(c) Where there is a need for compatibility of a direct digital control system with previously installed control systems and equipment, the bid specifications may include a requirement for proprietary goods, and if so included, the bid specification shall set forth an allowance price for its supply which shall be used by all bidders in the public bidding process.

(3) An energy services company may be designated as the general contractor for improvements to be made pursuant to an energy savings plan, provided that the hiring of subcontractors that are required to be classified pursuant to subparagraph (a) of paragraph (2) of this subsection shall be performed pursuant to the public bidding requirements of the board of trustees. A contract with an energy savings company shall include, but not be limited to: preparation of an energy savings plan, the responsibilities of the parties for project schedules, installations, performance and quality, payment of subcontractors, project completion, commissioning, savings implementation; a requirement that the savings to be achieved by energy conservation measures be verified upon commissioning of the improvements; allocation of State and federal rebates and tax credits; and any other provisions deemed necessary by the parties.

(4) Except as provided in paragraph (5) of this subsection, a subsidiary or wholly-owned or partially-owned affiliate of the energy services company shall not be an eligible contractor or subcontractor under an energy savings services contract.

(5) When the energy services company is the manufacturer of direct digital control systems and contracts with the board of trustees to provide a guaranteed energy savings option pursuant to subsection f. of this section, the specification of such direct digital control systems may be treated as proprietary goods and if so
treated, the bid specification shall set forth an allowance price for
its supply by the energy services company which shall be used by
all bidders in the public bidding process. Direct digital controls
shall be open protocol format and shall meet the interoperability
guidelines established by the American Society of Heating,
Refrigerating and Air-Conditioning Engineers.

c. An energy savings improvement program may be financed
through a lease-purchase agreement or through the issuance of
energy savings obligations pursuant to this subsection.

(1) An energy savings improvement program may be financed
through a lease-purchase agreement between a board of trustees and
an energy services company or other public or private entity. Under
a lease-purchase agreement, ownership of the energy savings
equipment or improved facilities shall pass to the board of trustees
when all lease payments have been made. Notwithstanding the
provisions of any other law to the contrary, the duration of such a
lease-purchase agreement shall not exceed 15 years, except that the
duration of a lease purchase agreement for a combined heat and
power or cogeneration project shall not exceed 20 years.

(2) Any lease-purchase or other agreement entered into in
connection with an energy savings improvement program may be a
general obligation of the public institution of higher education
pursuant to this subsection, and may contain: a clause making it
subject to the availability and appropriation annually of sufficient
funds as may be required to meet the extended obligation; and a
non-substitution clause maintaining that if the agreement is
terminated for non-appropriation, the board of trustees may not
replace the leased equipment or facilities with equipment or
facilities that perform the same or similar functions.

(3) A board of trustees may arrange for incurring energy savings
obligations to finance an energy savings improvement program and
may enter into any agreement with the New Jersey Educational
Facilities Authority or other persons in connection with the issuance
by the authority of its obligations on behalf of the public institution
of higher education in order to finance the institution's energy
savings improvement program. Energy savings obligations may be
funded through appropriations for utility services in the annual
budget of the board, or incurred as a general obligation of the public
institution of higher education in connection with the issuance by
the New Jersey Educational Facilities Authority of bonds or notes
pursuant to N.J.S.18A:72A-2 et seq., or, in the case of a county
college, by a sponsoring county as a refunding bond pursuant to
N.J.S.40A:2-52 et seq., including the issuance of bond anticipation
notes as may be necessary, provided that all such bonds and notes
mature within the periods authorized for such energy savings
obligations.

(4) Lease-purchase agreements and energy savings obligations
shall not be used to finance maintenance, guarantees, or verification
of guarantees of energy conservation measures. Lease-purchase agreements and energy savings obligations may be used to finance the cost of an energy audit or the cost of verification of energy savings as part of adopting an energy savings plan. Maturity schedules of lease-purchase agreements or energy savings obligations must exceed the estimated useful life of the individual energy conservation measures.

d. (1) The energy audit component of an energy savings improvement program shall be conducted either by the board of trustees or by a qualified third party retained by the board for that purpose. It shall not be conducted by an energy services company subsequently hired to develop an energy savings improvement program. The energy audit shall identify the current energy use of any or all facilities and energy conservation measures that can be implemented in which the energy savings and energy efficiency could be realized and maximized.

(2) To implement an energy savings improvement program, a board of trustees shall develop an energy savings plan that consists of one or more energy conservation measures. The plan shall:

(a) contain the results of an energy audit;
(b) describe the energy conservation measures that will comprise the program;
(c) estimate greenhouse gas reductions resulting from those energy savings;
(d) identify all design and compliance issues that require the professional services of an architect or engineer and identify who will provide these services;
(e) include an assessment of risks involved in the successful implementation of the plan;
(f) identify the eligibility for, and costs and revenues associated with the PJM Independent System Operator for demand response and curtailable service activities;
(g) include schedules showing calculations of all costs of implementing the proposed energy conservation measures and the projected energy savings;
(h) identify maintenance requirements necessary to ensure continued energy savings, and describe how they will be fulfilled; and
(i) if developed by an energy services company, a description of, and cost estimates of an energy savings guarantee.

All professionals providing engineering services under the plan shall have errors and omissions insurance.

(3) Prior to the adoption of the plan, the board of trustees shall contract with a qualified third party to verify the projected energy savings to be realized from the proposed program have been calculated as required by subsection e. of this section.

(4) Upon adoption, the plan shall be submitted to the Board of Public Utilities, which shall post it on the Internet on a public
webpage maintained for such purpose. If the board of trustees
maintains its own website, it shall also post the plan on that site.
The Board of Public Utilities may require periodic reporting
concerning the implementation of the plan.
(5) Verification by a qualified third party shall be required when
energy conservation measures are placed in service or
commissioned, to ensure the savings projected in the energy savings
plan shall be achieved.
(6) Energy-related capital improvements that do not reduce
energy usage may be included in an energy savings improvement
program but the cost of such improvements shall not be financed as
a lease-purchase or through energy savings obligations authorized
by subsection c. of this section. Nothing herein is intended to
prevent the financing of such capital improvements through
otherwise authorized means.
(7) A qualified third party when required by this subsection may
include an employee of the public institution of higher education
who is properly trained and qualified to perform such work.
e. (1) The calculation of energy savings for the purposes of
determining that the energy savings resulting from the program will
be sufficient to cover the cost of the program's energy conservation
measures, as provided in subsection a. of this section, shall involve
determination of the dollar amount saved through implementation
of an energy savings improvement program using the guidelines of
the International Performance Measurement and Verification
Protocol or other protocols approved by the Board of Public
Utilities and standards adopted by the Board of Public Utilities
pursuant to this section. The calculation shall include all applicable
State and federal rebates and tax credits, but shall not include the
cost of an energy audit and the cost of verifying energy savings.
The calculation shall state which party has made application for
rebates and credits and how these applications translate into energy
savings.
(2) For the purposes of this section, the Board of Public Utilities
shall adopt standards and uniform values for interest rates and
escalation of labor, electricity, oil, and gas, as well as standards for
presenting these costs in a life cycle and net present value format,
standards for the presentation of obligations for carbon reductions,
and other standards that the board may determine necessary.
f. (1) When an energy services company is awarded an energy
savings services contract, it shall offer the board of trustees the
option to purchase, for an additional amount, an energy savings
guarantee. The guarantee, if accepted by a separate vote of the
board of trustees, shall insure that the energy savings resulting from
the energy savings improvement program, determined periodically
over the duration of the guarantee, will be sufficient to defray all
payments required to be made pursuant to the lease-purchase
agreement or energy savings obligation, and if the savings are not
sufficient, the energy services company will reimburse the board of
trustees for any additional amounts. Annual costs of a guarantee
shall not be financed or included as costs in an energy savings plan
but shall be fully disclosed in an energy savings plan.
(2) When a guaranteed energy savings option is purchased, the
contract shall require a qualified third party to verify the energy
savings at intervals established by the parties.

Fund or the Public Employees' Retirement System or the Police and
Firemen's Retirement System elects to transfer to an alternate
benefit program by filing the proper application form declaring his
election to participate in such alternate benefit program, the
respective retirement system shall transfer the amount of his
accumulated deductions as of the date of transfer to his individual
account in the program.

(b) There shall also be transferred from the contingent reserve
fund or the pension fund of the Teachers' Pension and Annuity Fund
or the Public Employees' Retirement System or the Police and
Firemen's Retirement System or from the Group Annuity Plan to the
individual's account in the alternate benefit program, the pension
reserve required as of the date of his transfer to provide a pension
for each year of service credited to the account of the member as set
forth in N.J.S.18A:66-36 or N.J.S.18A:66-44 or as set forth in
section 38 or section 48 of P.L.1954, c. 84 as such sections have
been amended and supplemented as of July 1, 1969 (C.43:15A-38,
C.43:15A-48) or as set forth in section 17 of P.L.1964, c.241
(C.43:16A-11.2) or section 5 of P.L.1944, c.255 (C.43:16A-5) or
for each year of service credited under the Group Annuity Plan.
Such transfer from the contingent reserve fund or the pension fund
of the Teachers' Pension and Annuity Fund or the Public
Employees' Retirement System or the Police and Firemen's
Retirement System or the Group Annuity Plan shall be made at the
time of the member's transfer to the alternate benefit program in the
case of any such member who has then met the eligibility
requirements for a pension under the aforementioned N.J.S.18A:66-36, or N.J.S.18A:66-44, or section 38 or section 48 of P.L.1954, c.84 (C.43:15A-38, C.43:15A-48) or section 17 of P.L.1964, c.241 (C.43:16A-11.2) or section 5 of P.L.1944, c.255 (C.43:16A-5) or the Group Annuity Plan. In the case of any member who elects to participate in the alternate benefit program who has not then met the eligibility requirements for a pension under N.J.S.18A:66-36 or N.J.S.18A:66-44, or under section 38 or section 48 of P.L.1954, c.84 (C.43:15A-38, C.43:15A-48) or section 17 of P.L.1964, c.241 (C.43:16A-11.2) or section 5 of P.L.1944, c.255 (C.43:16A-5) or under the Group Annuity Plan, the transfer from the contingent reserve fund or the pension fund of the Teachers' Pension and Annuity Fund or the Public Employees' Retirement System or the Police and Firemen's Retirement System or the Group Annuity Plan shall be effected at the time such requirements have been met, taking into account for the purpose of such eligibility requirement his years of membership service at the time of his election and his subsequent years of service as a full-time member of the faculty of [the University of Medicine and Dentistry,] Rutgers, The State University, the New Jersey Institute of Technology, Rowan University, or the State or county colleges or as an eligible employee of the Department of Higher Education, or at the time he shall have 10 years of credit for New Jersey service and becomes physically incapacitated for the performance of duty if he had been a member of the Teachers' Pension and Annuity Fund or the Public Employees' Retirement System or the Police and Firemen's Retirement System as of the date of transfer.

The annuity to be used in determining the amount of pension is the actuarial equivalent of the member's accumulated deductions transferred from the Teachers' Pension and Annuity Fund or the Public Employees' Retirement System or the Police and Firemen's Retirement System to the date the member attains 60 years of age, if subsequent to the date of election. The amount of pension is that established by formula within N.J.S.18A:66-44 or section 48 of P.L.1954, c.84 as such sections have been amended and supplemented as of July 1, 1969 (C.43:15A-48) or section 5 of P.L.1944, c.255 (C.43:16A-5) or under the Group Annuity Plan, and changes to N.J.S.18A:66-44 or section 48 of P.L.1954, c.84 (C.43:15A-48) or section 5 of P.L.1944, c.255 (C.43:16A-5) enacted subsequent to this act or the Group Annuity Plan shall have no application to the provisions of this act.

In the event that the eligibility requirement under N.J.S.18A:66-36 or under section 38 of P.L.1954, c.84 (C.43:15A-38) or section 17 of P.L.1964, c.241 (C.43:16A-11.2) or under the Group Annuity Plan is changed at some future date to permit members to become eligible for such benefit prior to the completion of 15 years of service, the transfer of the reserve from the contingent reserve fund or the pension fund of the Teachers' Pension and Annuity Fund or
the Public Employees' Retirement System or the Police and Firemen's Retirement System or from the Group Annuity Plan shall be effective as of the date the member who had elected the alternate benefit program meets the amended eligibility requirement or the effective date of the amendment, whichever is later.

In the event an option is available with respect to the distribution of employee and employer contributions between fixed and variable annuities under the alternate benefit program, the employee shall have the right to determine the percentage distribution of these funds subject to any limitations imposed by the designated insurer or insurers.

(c) No transfer of pension reserves shall be made pursuant to this section where more than two consecutive years elapse in which no employer contributions to an alternate benefit program are required.

(cf: P.L.1993, c.385, s.5)

Section 8 of P.L.1969, c.242 (C.18A:66-174) is amended to read as follows:

The intervals for deductions or reductions and payments shall be determined by the respective school governing bodies.

The Division of Pensions and Benefits shall provide for reductions from the compensation of each participant in the alternate benefit program employed by the State and county colleges of an employee contribution equal to 5% of the participant's base salary and pay this amount to the insurers or mutual fund companies for the individual's retirement annuity contract or contracts. The intervals for deductions or reductions and payments shall be determined by the Division of Pensions and Benefits.

The Division of Pensions and Benefits may require that all participant contributions be made in accordance with section 414(h) of the federal Internal Revenue Code (26 U.S.C. s.414(h)).

(b) Based on a certification to the Division of Pensions and Benefits by [the University of Medicine and Dentistry of New Jersey,] Rutgers, The State University [and], the New Jersey Institute of Technology, and Rowan University of the number and base salary of participants, the division shall authorize the State to make payment of the employer contributions to the alternate benefit program at a rate equal to 8% of the employee's base salary, except
the amount of the contribution shall not exceed 8% of the maximum
salary for department officers established pursuant to section 1 of
P.L.1974, c.55 (C.52:14-15.107), which moneys shall be paid to the
designated insurers or mutual fund companies for the benefit of
each participant.

Based on a certification by the Division of Pensions and Benefits
of the number and base salary of participants employed by the State
and county colleges, the State shall make payment of the employer

The fund shall remain in the custody of the State Treasurer, and to the extent of its cash requirements shall be deposited in authorized public depositories in the State of New Jersey. There shall be deposited in and credited to the fund the amount of worker and employer contributions provided under subparagraph (G) of paragraph (1) of subsection (d) of R.S.43:21-7 and subsection (e) of R.S.43:21-7, less refunds authorized by the chapter (R.S.43:21-1 et seq.) to which this act is a supplement, and the entire amount of interest and earnings from investments of the fund, and all assessments, fines and penalties collected under this act. The fund shall be held in trust for the payment of disability benefits pursuant to this act, for the payment of benefits pursuant to subsection (f) of R.S.43:21-4, and for the payment of any authorized refunds of contributions. All warrants for the payment of benefits shall be issued by and bear only the signature of the Director of the Division of Unemployment and Temporary Disability Insurance or his duly authorized agent for that purpose. All other moneys withdrawn from the fund shall be upon warrant signed by the State Treasurer and countersigned by the Director of the Division of Unemployment and Temporary Disability Insurance of the Department of Labor of the State of New Jersey. The Treasurer shall maintain books, records and accounts for the fund, appoint personnel and fix their compensation within the limits of available appropriations. The costs of administration of this act, including R.S.43:21-4(f), shall be charged to the administration account.

(b) A further separate account, to be known as the unemployment disability account, shall be maintained in the fund. Such account shall be charged with all benefit payments under R.S.43:21-4(f).

Prior to July 1 of each calendar year, the Division of Unemployment and Temporary Disability Insurance of the Department of Labor of the State of New Jersey shall determine the average rate of interest and other earnings on all investments of the State disability benefits fund for the preceding calendar year. An
amount equal to the sum of the amounts withdrawn from the
unemployment trust fund pursuant to section 23 hereof multiplied

provided hereinabove, the division shall determine the ratio of such
deficit to the total of all taxable wages paid during the preceding
calendar year, and shall make an assessment against all employers
in an amount equal to the taxable wages paid by them during such
preceding calendar year to employees, multiplied by such ratio, but
in no event shall any such assessment exceed 1/10 or 1% of such
wages; provided, however, that the assessment made against the
State (including Rutgers, The State University [the University of

paid under the provisions of R.S.43:21-4(f) as the result of
employment with the State. Such amounts shall be collectible by
the division in the same manner as provided for the collection of
employee contributions under this chapter (R.S.43:21-1 et seq.). In
making this assessment, the division shall furnish to each affected
employer a brief summary of the determination thereof. The
amount of such assessments collected by the division shall be
credited to the unemployment disability account.

As used in this section, "taxable wages" shall mean wages with
respect to which employer contributions have been paid or are
payable pursuant to subsections (a), (b) and (c) of R.S.43:21-7.

(c) A board of trustees, consisting of the State Treasurer, the
Secretary of State, the Commissioner of Labor and Industry, the
director of the division, and the State Comptroller, is hereby
created. The board shall invest and reinvest all moneys in the fund
in excess of its cash requirements, and such investments shall be
made in obligations legal for savings banks; provided, however, that
the provisions of this subsection shall in all respects be subject to
the provisions of P.L.1950, c.270 (C.52:18A-79 et seq.).

(d) There is hereby appropriated, to be paid out of the fund, such

4. a. The board of trustees of a public institution of higher education may implement an energy savings improvement program in the manner provided by this section whenever it determines that the savings generated from reduced energy use from the program will be sufficient to cover the cost of the program's energy conservation measures as set forth in an energy savings plan. Under such a program, a board of trustees may enter into an energy savings services contract with an energy services company to implement the program or the board may authorize separate
contracts to implement the program. The provisions of:
N.J.S.18A:64-1 et seq., in the case of any State college; P.L.1995,
c.400 (C.18A:64E-12 et seq.), in the case of the New Jersey
Institute of Technology; N.J.S.18A:65-1 et seq., in the case of
Rutgers, the State University; [P.L.1970, c.102 (C.18A:64G-1 et
al.), in the case of the University of Medicine and Dentistry of New
Jersey]; P.L.____, c.____ (C.____) (pending before the Legislature as this
bill), in the case of Rowan University; and N.J.S.18A:64A-1 et seq.,
in the case of the county colleges; shall apply to any contracts
awarded pursuant to this section to the extent that the provisions of
such law are not inconsistent with any provision of this section.

In the case of Rutgers, the State University, references in this
section to the board of trustees shall mean the Rutgers board of
governors.
b. (1) To be eligible to enter into an energy savings services
contract, an energy services company shall be a commercial entity
that is qualified to provide energy savings services in accordance
with the provisions of this section. A public institution of higher
education may enter into an energy savings services contract
through public advertising for bids and the receipt of bids therefor.

(2) (a) Public works activities performed under an energy
savings improvement program shall be subject to all requirements
regarding public bidding, bid security, performance guarantees,
insurance and other public contracting requirements that are
applicable to public works contracts, to the extent not inconsistent
with this section. A general contractor, energy services company
serving as general contractor, or any subcontractor hired for the
furnishing of plumbing and gas fitting and all kindred work, and of
steam and hot water heating and ventilating apparatus, steam power
plants and kindred work, and electrical work, structural steel and
ornamental iron work, shall be classified by the Division of
Property Management and Construction in the Department of the
Treasury in order to perform public works activities under an
energy savings improvement program.

(b) Individuals or organizations performing energy audits,
acting as commissioning agents, or conducting verification of
energy savings plans, implementation of energy conservation
measures, or verifying guarantees shall be prequalified by the
Division of Property Management and Construction in the
Department of the Treasury to perform their work under an energy
savings improvement program.

(c) Where there is a need for compatibility of a direct digital
control system with previously installed control systems and
equipment, the bid specifications may include a requirement for
proprietary goods, and if so included, the bid specification shall set
forth an allowance price for its supply which shall be used by all
bidders in the public bidding process.
(3) An energy services company may be designated as the general contractor for improvements to be made pursuant to an energy savings plan, provided that the hiring of subcontractors that are required to be classified pursuant to subparagraph (a) of paragraph (2) of this subsection shall be performed pursuant to the public bidding requirements of the board of trustees. A contract with an energy savings company shall include, but not be limited to: preparation of an energy savings plan, the responsibilities of the parties for project schedules, installations, performance and quality, payment of subcontractors, project completion, commissioning, savings implementation; a requirement that the savings to be achieved by energy conservation measures be verified upon commissioning of the improvements; allocation of State and federal rebates and tax credits; and any other provisions deemed necessary by the parties.

(4) Except as provided in paragraph (5) of this subsection, a subsidiary or wholly-owned or partially-owned affiliate of the energy services company shall not be an eligible contractor or subcontractor under an energy savings services contract.

(5) When the energy services company is the manufacturer of direct digital control systems and contracts with the board of trustees to provide a guaranteed energy savings option pursuant to subsection f. of this section, the specification of such direct digital control systems may be treated as proprietary goods and if so treated, the bid specification shall set forth an allowance price for its supply by the energy services company which shall be used by all bidders in the public bidding process. Direct digital controls shall be open protocol format and shall meet the interoperability guidelines established by the American Society of Heating, Refrigerating and Air-Conditioning Engineers.

c. An energy savings improvement program may be financed through a lease-purchase agreement or through the issuance of energy savings obligations pursuant to this subsection.

(1) An energy savings improvement program may be financed through a lease-purchase agreement between a board of trustees and an energy services company or other public or private entity. Under a lease-purchase agreement, ownership of the energy savings equipment or improved facilities shall pass to the board of trustees when all lease payments have been made. Notwithstanding the provisions of any other law to the contrary, the duration of such a lease-purchase agreement shall not exceed 15 years, except that the duration of a lease purchase agreement for a combined heat and power or cogeneration project shall not exceed 20 years.

(2) Any lease-purchase or other agreement entered into in connection with an energy savings improvement program may be a general obligation of the public institution of higher education pursuant to this subsection, and may contain: a clause making it subject to the availability and appropriation annually of sufficient
funds as may be required to meet the extended obligation; and a non-substitution clause maintaining that if the agreement is terminated for non-appropriation, the board of trustees may not replace the leased equipment or facilities with equipment or facilities that perform the same or similar functions.

(3) A board of trustees may arrange for incurring energy savings obligations to finance an energy savings improvement program and may enter into any agreement with the New Jersey Educational Facilities Authority or other persons in connection with the issuance by the authority of its obligations on behalf of the public institution of higher education in order to finance the institution's energy savings improvement program. Energy savings obligations may be funded through appropriations for utility services in the annual budget of the board, or incurred as a general obligation of the public institution of higher education in connection with the issuance by the New Jersey Educational Facilities Authority of bonds or notes pursuant to N.J.S.18A:72A-2 et seq., or, in the case of a county college, by a sponsoring county as a refunding bond pursuant to N.J.S.40A:2-52 et seq., including the issuance of bond anticipation notes as may be necessary, provided that all such bonds and notes mature within the periods authorized for such energy savings obligations.

(4) Lease-purchase agreements and energy savings obligations shall not be used to finance maintenance, guarantees, or verification of guarantees of energy conservation measures. Lease-purchase agreements and energy savings obligations may be used to finance the cost of an energy audit or the cost of verification of energy savings as part of adopting an energy savings plan. Maturity schedules of lease-purchase agreements or energy savings obligations must exceed the estimated useful life of the individual energy conservation measures.

d. (1) The energy audit component of an energy savings improvement program shall be conducted either by the board of trustees or by a qualified third party retained by the board for that purpose. It shall not be conducted by an energy services company subsequently hired to develop an energy savings improvement program. The energy audit shall identify the current energy use of any or all facilities and energy conservation measures that can be implemented in which the energy savings and energy efficiency could be realized and maximized.

(2) To implement an energy savings improvement program, a board of trustees shall develop an energy savings plan that consists of one or more energy conservation measures. The plan shall:

(a) contain the results of an energy audit;
(b) describe the energy conservation measures that will comprise the program;
(c) estimate greenhouse gas reductions resulting from those energy savings;
(d) identify all design and compliance issues that require the professional services of an architect or engineer and identify who will provide these services;

(e) include an assessment of risks involved in the successful implementation of the plan;

(f) identify the eligibility for, and costs and revenues associated with the PJM Independent System Operator for demand response and curtailable service activities;

(g) include schedules showing calculations of all costs of implementing the proposed energy conservation measures and the projected energy savings;

(h) identify maintenance requirements necessary to ensure continued energy savings, and describe how they will be fulfilled;

and

(i) if developed by an energy services company, a description of, and cost estimates of an energy savings guarantee.

All professionals providing engineering services under the plan shall have errors and omissions insurance.

(3) Prior to the adoption of the plan, the board of trustees shall contract with a qualified third party to verify the projected energy savings to be realized from the proposed program have been calculated as required by subsection e. of this section.

(4) Upon adoption, the plan shall be submitted to the Board of Public Utilities, which shall post it on the Internet on a public webpage maintained for such purpose. If the board of trustees maintains its own website, it shall also post the plan on that site.

The Board of Public Utilities may require periodic reporting concerning the implementation of the plan.

(5) Verification by a qualified third party shall be required when energy conservation measures are placed in service or commissioned, to ensure the savings projected in the energy savings plan shall be achieved.

(6) Energy-related capital improvements that do not reduce energy usage may be included in an energy savings improvement program but the cost of such improvements shall not be financed as a lease-purchase or through energy savings obligations authorized by subsection c. of this section. Nothing herein is intended to prevent the financing of such capital improvements through otherwise authorized means.

(7) A qualified third party when required by this subsection may include an employee of the public institution of higher education who is properly trained and qualified to perform such work.

(e. (1) The calculation of energy savings for the purposes of determining that the energy savings resulting from the program will be sufficient to cover the cost of the program's energy conservation measures, as provided in subsection a. of this section, shall involve determination of the dollar amount saved through implementation of an energy savings improvement program using the guidelines of
the International Performance Measurement and Verification Protocol or other protocols approved by the Board of Public Utilities and standards adopted by the Board of Public Utilities pursuant to this section. The calculation shall include all applicable State and federal rebates and tax credits, but shall not include the cost of an energy audit and the cost of verifying energy savings. The calculation shall state which party has made application for rebates and credits and how these applications translate into energy savings.

(2) For the purposes of this section, the Board of Public Utilities shall adopt standards and uniform values for interest rates and escalation of labor, electricity, oil, and gas, as well as standards for presenting these costs in a life cycle and net present value format, standards for the presentation of obligations for carbon reductions, and other standards that the board may determine necessary.

f. (1) When an energy services company is awarded an energy savings services contract, it shall offer the board of trustees the option to purchase, for an additional amount, an energy savings guarantee. The guarantee, if accepted by a separate vote of the board of trustees, shall insure that the energy savings resulting from the energy savings improvement program, determined periodically over the duration of the guarantee, will be sufficient to defray all payments required to be made pursuant to the lease-purchase agreement or energy savings obligation, and if the savings are not sufficient, the energy services company will reimburse the board of trustees for any additional amounts. Annual costs of a guarantee shall not be financed or included as costs in an energy savings plan but shall be fully disclosed in an energy savings plan.

(2) When a guaranteed energy savings option is purchased, the contract shall require a qualified third party to verify the energy savings at intervals established by the parties.

capital replacement expenditures avoided as a result of equipment
installed or services performed as part of an energy savings plan;

shall mean:
(1) The entire period of time during which the covered
individual is continuously and totally unable to perform the duties
of the covered individual's employment because of the covered
individual's own disability, except that two periods of disability due

during such 14-day period with the employer who was the
individual's last employer immediately preceding the first period of
disability; and

(3) "Base week" with respect to periods of disability commencing on or after October 1, 1985 and before January 1, 2001, means any calendar week during which a covered individual earned in employment from a covered employer remuneration equal to not less than 20% of the Statewide average weekly wage determined under subsection (c) of R.S.43:21-3, which shall be adjusted to the next higher multiple of $1.00 if not already a multiple thereof.

(j) (1) "Average weekly wage" means the amount derived by dividing a covered individual's total wages earned from the individual's most recent covered employer during the base weeks in the eight calendar weeks immediately preceding the calendar week in which a period of disability commenced, by the number of such base weeks.

(2) If the computation in paragraph (1) of this subsection (j) yields a result which is less than the individual's average weekly earnings in employment with all covered employers during the base weeks in such eight calendar weeks, then the average weekly wage shall be computed on the basis of earnings from all covered employers during the base weeks in the eight calendar weeks immediately preceding the week in which the period of disability commenced.

department by the individual on a form provided by the department,  
be computed by the department on the basis of earnings from all  
covered employers of the individual during the base weeks in those  
26 calendar weeks, and, in the case of a claim for benefits from a  
private plan, that computation of the average weekly wage shall be  
provided by the department to the individual and the individual's  
employer.  

When determining the "average weekly wage" with respect to a  
period of family temporary disability leave for an individual who  
has a period of family temporary disability immediately after the  
individual has a period of disability for the individual's own

be with a child during the first 12 months after the child's birth, if  
the individual, or the domestic partner or civil union partner of the  
individual, is a biological parent of the child, or the first 12 months  
after the placement of the child for adoption with the individual.  
"Family temporary disability leave" does not include any period of  
time in which a covered individual is paid benefits pursuant to  
P.L.1948, c.110 (C.43:21-25 et al.) because the individual is unable  
to perform the duties of the individual's employment due to the  
individual's own disability.  

(p) "Health care provider" means a health care provider as

The fund shall remain in the custody of the State Treasurer, and to the extent of its cash requirements shall be deposited in authorized public depositories in the State of New Jersey. There shall be deposited in and credited to the fund the amount of worker and employer contributions provided under subparagraph (G) of paragraph (1) of subsection (d) of R.S.43:21-7 and subsection (e) of R.S.43:21-7, less refunds authorized by the chapter (R.S.43:21-1 et seq.) to which this act is a supplement, and the entire amount of interest and earnings from investments of the fund, and all assessments, fines and penalties collected under this act. The fund shall be held in trust for the payment of disability benefits pursuant to this act, for the payment of benefits pursuant to subsection (f) of R.S. 43:21-4, and for the payment of any authorized refunds of contributions. All warrants for the payment of benefits shall be issued by and bear only the signature of the Director of the Division of Unemployment and Temporary Disability Insurance or his duly authorized agent for that purpose. All other moneys withdrawn from the fund shall be upon warrant signed by the State Treasurer and countersigned by the Director of the Division of Unemployment and Temporary Disability Insurance of the Department of Labor of the State of New Jersey. The Treasurer shall maintain books, records and accounts for the fund, appoint personnel and fix their compensation within the limits of available appropriations. The expenses of the Treasurer in administering the fund and its accounts shall be charged against the administration account, as hereinafter established. A separate account, to be known as the administration account, shall be maintained in the fund, and there shall be credited to such account an amount determined to be sufficient for proper administration, not
to exceed, however, 1/10 of 1% of the wages with respect to which current contributions are payable into the fund, and the entire amount of any assessments against covered employers, as hereinafter provided, for costs of administration prorated among approved private plans. The costs of administration of this act, including R.S.43:21-4(f), shall be charged to the administration account.

(b) A further separate account, to be known as the unemployment disability account, shall be maintained in the fund. Such account shall be charged with all benefit payments under R.S.43:21-4(f).

Prior to July 1 of each calendar year, the Division of Unemployment and Temporary Disability Insurance of the Department of Labor of the State of New Jersey shall determine the average rate of interest and other earnings on all investments of the State disability benefits fund for the preceding calendar year. An amount equal to the sum of the amounts withdrawn from the unemployment trust fund pursuant to section 23 hereof multiplied by such average rate shall be determined by the division and credited to the unemployment disability account as of the end of the preceding calendar year.

If the unemployment disability account shall show an accumulated deficit in excess of $200,000.00 at the end of any calendar year after interest and other earnings have been credited as provided hereinabove, the division shall determine the ratio of such deficit to the total of all taxable wages paid during the preceding calendar year, and shall make an assessment against all employers in an amount equal to the taxable wages paid by them during such preceding calendar year to employees, multiplied by such ratio, but in no event shall any such assessment exceed 1/10 or 1% of such wages; provided, however, that the assessment made against the State (including Rutgers, The State University [the University of Medicine and Dentistry of New Jersey] and the New Jersey Institute of Technology) shall not exceed the sum of all benefits paid under the provisions of R.S.43:21-4(f) as the result of employment with the State. Such amounts shall be collectible by the division in the same manner as provided for the collection of employee contributions under this chapter (R.S.43:21-1 et seq.). In making this assessment, the division shall furnish to each affected employer a brief summary of the determination thereof. The amount of such assessments collected by the division shall be credited to the unemployment disability account.

As used in this section, "taxable wages" shall mean wages with respect to which employer contributions have been paid or are payable pursuant to subsections (a), (b) and (c) of R.S.43:21-7.

(c) A board of trustees, consisting of the State Treasurer, the Secretary of State, the Commissioner of Labor and Industry, the director of the division, and the State Comptroller, is hereby created. The board shall invest and reinvest all moneys in the fund
in excess of its cash requirements, and such investments shall be made in obligations legal for savings banks; provided, however, that the provisions of this subsection shall in all respects be subject to the provisions of P.L.1950, c.270 (C.52:18A-79 et seq.).

(d) There is hereby appropriated, to be paid out of the fund, such amounts as may from time to time be required for the payment of disability benefits, and such amounts as may be required each year, as contained in the annual appropriation act, for the administration of this act, including R.S.43:21-4(f).

STATEMENT

This bill, the “New Jersey Medical and Health Sciences Education Restructuring Act,” implements numerous changes to the State’s public system of higher education.

The bill transfers all schools, institutes, and centers of the University of Medicine and Dentistry of New Jersey, other than the School of Osteopathic Medicine, to Rutgers, The State University. The bill provides for the appropriate transfer of: facilities; appropriations, grants and other moneys available to the transferred entities; employees of; and all files, books, papers, records, equipment, and other property of the transferred entities to Rutgers, The State University. The bill provides that all orders, rules or regulations made or promulgated by the schools, institutes, and centers, or by the University of Medicine and Dentistry of New Jersey on their behalf, will be continued with full force and effect as the orders, rules and regulations of Rutgers, The State University until amended or repealed pursuant to law. The bill further provides that the bill will not affect any actions or proceedings, civil or criminal, brought by or against the schools, institutes, and centers of the University of Medicine and Dentistry of New Jersey.

The bill provides that all debts of the University of Medicine and Dentistry associated with the schools, institutes, and centers will be transferred to Rutgers, The State University.

This bill also transfers the School of Osteopathic Medicine of the University of Medicine and Dentistry of New Jersey to Rowan University. The bill provides for the appropriate transfer of: facilities; appropriations, grants and other moneys available to the
The bill provides that all debts of the University of Medicine and Dentistry of New Jersey associated with the School of Osteopathic Medicine will be transferred to Rowan University. The bill provides protections for University of Medicine and Dentistry of New Jersey employees with regard to pension rights, health benefits, collective bargaining, and civil service status if any, as well as the tenure, rank, or academic track of any person holding a faculty position, who may be transferred to, or otherwise become employees of, Rutgers, The State University or Rowan University as a result of a reorganization pursuant or subsequent to the bill. The employees, upon transfer to a new entity, are to retain any accrued seniority, rank, and tenure, which are to be applied when determining eligibility for all benefits, including all paid leave time, longevity increases, and promotions.

The bill designates University Hospital as the principal teaching hospital of New Jersey Medical School, but stipulates that University Hospital is to be treated and accounted for as a separate legal entity from the university, and prohibits its assets, liabilities, and funds from being consolidated or commingled with those of the university.

The bill requires that all monies allocated to the University of Medicine and Dentistry of New Jersey for the use of University Hospital, regardless of their source, and which remain unexpended on the effective date of the bill, be transferred to the hospital, and that all appropriations intended for the use of University Hospital, on or after the effective date of the bill, be made directly to the hospital.

The bill establishes a nine-member board, to be designated as the University Hospital Community Oversight Board, which is responsible for ensuring community access to services provided at University Hospital. The membership of the board is comprised of: (1) four ex officio members, including the President of Rutgers University; and the Chief Executive Officer, Chief Financial Officer, and Chief Medical Officer of University Hospital; and (2) five public members, including two representatives of organized labor appointed by the heads of labor unions that represent persons employed at University Hospital and three persons with one each appointed by the Governor with the advice and consent of the
Senate, the President of the Senate, and the Speaker of the General
Assembly. The board is to meet at such times and places as it
designates, and University Hospital is to provide such staff support
to the board as it deems necessary to carry out its duties.

The bill provides protections for University Hospital officers and
employees with regard to pension rights, health benefits, collective
bargaining, and civil service status if any, as well as the tenure,
rank, or academic track of any person holding a faculty position that
is associated with University Hospital, who may be transferred to,
or otherwise become employees of, a new entity as a result of a
restructuring or reorganization pursuant or subsequent to the bill.
The employees, upon transfer to a new entity, are to retain any
accrued seniority, rank, and tenure, which are to be applied when
determining eligibility for all benefits, including all paid leave time,
longevity increases, and promotions.

The bill requires that University Hospital obtain approval from
the Superior Court of New Jersey prior to entering into a transaction
that results in the acquisition of the hospital, and satisfy the
requirements of the “Community Health Care Assets Protection
Act,” P.L.2000, c.143 (C.26:2H-7.10 et seq.), to the maximum
extent to which those provisions are determined applicable by the
Attorney General, in consultation with the Commissioner of Health
and Senior Services.

The bill adds three nonvoting, ex-officio members to the
University Hospital Board of Directors, as follows: the Dean of
New Jersey Medical School, the Dean of New Jersey Dental
School; and the Commissioner of Health and Senior Services. In
addition, the bill revises the existing membership of the board of
directors by replacing the four ex-officio members of the University
Hospital Board of Trustees with four public members appointed by
the Governor, with the advice and consent of the Senate, in addition
to the five public members of the board of directors who are already
appointed in that manner. A person who is a member of the board
of directors on the effective date of the bill would, however, be
permitted to serve for the balance of the term for which that person
was appointed.

This bill establishes new governance structures for Rutgers
University-Newark and Rutgers University-Camden. Under the
bill’s provisions, a board of governors is established at Rutgers
University –Newark. The membership of the board will include the
chancellor of Rutgers University-Newark, two members appointed
by the board of governors of Rutgers University from among its
members, one member appointed by the board of trustees of Rutgers
University from among its members, and four members who are
residents of the northern counties of the State appointed by the
Governor. The campus board of governors will have authority to:
maintain a separate debt service account for Rutgers University-
Newark; propose capital projects and bonding for Rutgers
University-Newark to the board of governors of Rutgers University; propose an annual budget for Rutgers University-Newark to the board of governors of Rutgers University; recommend new academic programs and degree requirements for Rutgers University-Newark to the board of governors of Rutgers University; and recommend candidates for promotion and tenure at Rutgers University-Newark to the board of governors of Rutgers University.

Under the bill’s provisions, a campus board of trustees is established at Rutgers University-Camden. The membership of the board will include the chancellor of Rutgers University-Camden, two members appointed by the board of governors of Rutgers University from among its members, one member appointed by the board of trustees of Rutgers University from among its members, and four members who are residents of the southern counties of the State appointed by the Governor.

The campus board of trustees of Rutgers University-Camden will have authority similar to that of the board of governors of the university, such as setting tuition and fees, disbursing funds appropriated to each of those campuses, preparing an annual budget, planning for capital projects, and entering into contracts for the construction of such projects. However, the board of governors of Rutgers University will determine standards for the establishment and evaluation of academic programs, standards for the award of degrees, and standards for the promotion and award of tenure to faculty.

Under the bill’s provisions, the board of governors of Rutgers University will continue to hold title to the property and assets located on Rutgers University-Camden. However, the board of governors will enter into a 99-year lease agreement with the campus board of trustees under which the board of governors will have no responsibility or control over the property and assets. Under the lease agreements, the board of trustees of Rutgers University-Camden will make an annual payment of $1 and will also pay any debt service associated with the facilities and properties located on the campus. At the end of the lease agreement Rutgers University-Camden will have the option to purchase the property at fair market value.

The Rutgers University board of governors and the Rutgers University-Camden board of trustees will also enter into an agreement in regard to participation of the campus in the central administrative services and systems provided by Rutgers University, such as the library system and information technology systems.

The bill establishes the Joint Rowan University-Rutgers Camden Board of Governors. Under the bill, the authorities granted to the boards of trustees at Rutgers University-Camden and Rowan University will be subject to the approval of the joint board. In addition, the bill authorizes the joint board to: approve or
disapprove of any decision of the board of trustees of Rowan
University or the board of trustees of Rutgers University-Camden;
determine policies for the organization, administration, and
development of curriculum and programs of Rowan University and
Rutgers University-Camden, including dual degree programs and
partnerships between the institutions; make joint faculty
appointments to Rowan University and Rutgers University-Camden;
determine policies for the shared utilization of each institution’s
resources including housing, student affairs, and security; provide
curricular oversight of joint programs of Rowan University and
Rutgers University-Camden; and develop plans and policies for the
operation and governance of health science facilities, including
policies concerning the development and financing of capital
improvements or expansions of health science facilities

Under the bill, Rowan University is established as a public
research university along with Rutgers, The State University and
the New Jersey Institute of Technology. Currently, Rowan
University is one of nine State colleges organized pursuant to
chapter 64 of Title 18A of the New Jersey Statutes.

Under this bill, the current board of trustees of Rowan University
is continued. The board of trustees is given authority similar to that
of the boards of the other public research universities in the State,
including the authority to participate as the general partner or as a
limited partner, either directly or through a subsidiary corporation
created by the university, in limited partnerships, general
partnerships, or joint ventures engaged in the development,
manufacture, or marketing of products, technology, scientific
information or health care services.
The Assembly Budget Committee reports favorably Assembly Bill No. 3102, with committee amendments.

As amended, the bill, designated as the “New Jersey Medical and Health Sciences Education Restructuring Act,” implements numerous changes to the State’s public system of higher education.

As amended, the bill transfers all schools, institutes, and centers of the University of Medicine and Dentistry of New Jersey (UMDNJ), other than the School of Osteopathic Medicine, the entire Stratford campus, the remaining facilities in Camden, and University Hospital, to Rutgers, The State University. The bill provides that all debts of UMDNJ associated with the schools, institutes, and centers will be transferred to Rutgers, The State University.

This bill also transfers the School of Osteopathic Medicine, the entire Stratford Campus, and the remaining facilities in Camden of the University of Medicine and Dentistry of New Jersey to Rowan University. The bill provides that all debts of UMDNJ incurred in the operation and administration of the School of Osteopathic Medicine and debt specifically and directly related to the real and personal property being transferred in Stratford will be transferred to Rowan University.

The bill provides protections for all employees of University Hospital and the institutions of higher education that may be impacted by the bill, including employees of UMDNJ, Rutgers University-Newark, Rutgers University-Camden, and Rowan University with regard to pension rights, health benefits, collective bargaining, and civil service status, as well as the tenure, contract tenure, rank, or academic track of any person holding a faculty position. The employees, upon transfer to a new entity, are to retain any accrued seniority, rank, and tenure, which are to be applied when determining eligibility for all benefits, including all paid leave time, longevity increases, and promotions.

The bill provides that UMDNJ employees will continue to be represented by the majority representative that represented them on the bill’s effective date, unless they choose to change their representative pursuant to law. The bill provides that Rutgers, The State University,
Rowan University, and University Hospital must assume all obligations under existing or expired collective negotiations agreements that covered employees of UMDNJ on the bill’s effective date for the employees who are transferred to those institutions. The bill further provides that employees in an existing UMDNJ negotiations unit who are transferred to or become employees of Rutgers, The State University, Rowan University, or University Hospital will be deemed to constitute an appropriate collective negotiations unit under the “New Jersey Employer-Employee Relations Act.” The bill stipulates that there will be no layoff on and between the enactment date of the bill and July 1, 2014 of any employee represented by a majority representative, who is employed on the bill’s enactment date, at UMDNJ, Rutgers, The State University, or Rowan University as a result of any reorganization, restructuring, transfer, or acquisition of any school, facility, hospital, entity, function, or operation of those institutions that occurs pursuant to or as a result of the bill’s implementation.

The bill provides that a Labor Management Committee (LMC) must be established within 60 days of the bill’s effective date. The LMC will be comprised of one representative from each of the majority representatives representing employees of Rutgers, The State University and UMDNJ and representatives of the administration of Rutgers, The State University. The LMC will review all proposed restructuring and reorganization plans and will make recommendations to the board of governors of Rutgers, The State University regarding personnel and labor relations related to the proposed plans.

The bill designates University Hospital as the principal teaching hospital of New Jersey Medical School and New Jersey Dental School and any other Newark-based medical education program, but stipulates that University Hospital is to be treated and accounted for as a separate non-profit legal entity from Rutgers, The State University, and prohibits its assets, liabilities, and funds from being consolidated or commingled with those of Rutgers, The State University.

The bill requires that all monies allocated to UMDNJ for the use of University Hospital, regardless of their source, and which remain unexpended on the effective date of the bill, be transferred to the hospital, and that all appropriations intended for the use of University Hospital, on or after the effective date of the bill, be made directly to the hospital. The amount of State funding provided to University Hospital must be sufficient to maintain the level of community services provided to University Hospital on the bill’s effective date. The bill also provides, that to the maximum extent possible and consistent with applicable law, the State will assist University Hospital in the refinancing of that portion of the debt of UMDNJ attributable to University Hospital.

The bill establishes a nine-member advisory board, to be designated as the University Hospital Community Oversight Board.
The purpose of the board is to ensure that the mission of the hospital and the intent of the “Newark Agreements” are upheld.

The bill requires that University Hospital obtain approval from the Superior Court of New Jersey prior to entering into a transaction that results in the acquisition of the hospital, and satisfy the requirements of the “Community Health Care Assets Protection Act,” P.L.2000, c.143 (C.26:2H-7.10 et seq.). The bill establishes criteria to be considered by the Attorney General when making a determination that a proposed acquisition is in the public interest. The bill also provides that prior to entering into a contract with a nonprofit corporation for the management or operation of University Hospital, the Department of Health and Senior Services will review and approve such contracts. The bill establishes criteria for such review and approval.

The bill adds four, ex-officio members to the University Hospital Board of Directors, as follows: the Dean of New Jersey Medical School, the Dean of New Jersey Dental School, the President of Rutgers, The State University or a designee, and the Chancellor of the School of Biomedical and Health Sciences of Rutgers University. In addition, the bill revises the existing membership of the board of directors by replacing the four ex-officio members of the University Hospital Board of Trustees with two public members appointed by the Governor, with the advice and consent of the Senate, in addition to the five public members of the board of directors who are already appointed in that manner. A person who is a member of the board of directors on the effective date of the bill would, however, be permitted to serve for the balance of the term for which that person was appointed.

The bill revises the membership of the board of governors of Rutgers, The State University. The bill increases the membership of the board from 11 to 15 voting members by: increasing the number of members appointed by the Governor from six to seven; and providing for the appointment of one other member by the Governor upon the joint recommendation of the President of the Senate and the Speaker of the General Assembly which member must be a resident of Essex County. The bill also increases the number of members of the board of trustees of Rutgers University who serve on the board of governors from five to seven and provides that one such member must be a resident of Essex County and one must be a resident of Middlesex County.

The bill directs the president of Rutgers, The State University, in consultation with the campus advisory board, to appoint a chancellor for Rutgers University-New Brunswick, who may not be the president. The chancellor of Rutgers University-New Brunswick will have direct responsibility for the management of Rutgers University-New Brunswick. The bill similarly establishes the position of chancellor at Rutgers University-Newark with management responsibility for that campus.
Under the bill’s provisions, a campus advisory board is established at both Rutgers University–Newark and Rutgers University-New Brunswick. Each of the campus advisory boards will consist of 11 members including: the chancellor of the respective campus; the member of the board of governors of Rutgers, The State University who is appointed by the university board of trustees, and who is a resident of Essex County in the case of the Rutgers University-Newark advisory board and a resident of Middlesex County in the case of the Rutgers University-New Brunswick advisory board; two faculty members one of whom is appointed by the faculty union and one of whom is elected by the Faculty Council of the respective campus; one member of the administration appointed by the chancellor of the respective campus; one staff member selected from among the staff unions; two student representatives appointed by the respective student government associations; and three members of the local community two of whom will be selected by the Office of Community Affairs from among community organizations with one of these members being a campus alumnus, and one of whom will be selected by the mayors of the respective cities. The campus advisory board will: advise the president and the board of governors of Rutgers University on the selection of the chancellor for the campus; propose capital projects and bonding for Rutgers University-Newark to the board of governors of Rutgers University; and propose an annual budget for Rutgers University-Newark to the board of governors of Rutgers University.

The bill provides that the schools, institutes, and centers of UMDNJ that are being transferred to Rutgers University will comprise a university-wide School of Biomedical and Health Sciences. The school will also include the Rutgers University School of Nursing, the Ernest Mario School of Pharmacy, the Institute of Health, Health Policy, and Aging Research, and the University Behavioral Healthcare.

Under the bill’s provisions, a campus board of trustees is established at Rutgers University-Camden. The membership of the board will include the chancellor of Rutgers University-Camden, two members appointed by the board of governors of Rutgers, The State University from among its members, one member appointed by the board of trustees of Rutgers University from among its members, and four members who are residents of the southern counties of the State appointed by the Governor.

The campus board of trustees of Rutgers University-Camden will have authority similar to that of the board of governors of Rutgers University, such as setting tuition and fees, disbursing appropriated funds, preparing an annual budget, planning for capital projects, and entering into contracts for the construction of such projects. However, the board of governors of Rutgers University will determine standards for the establishment and evaluation of academic programs, standards
for the award of degrees, and standards for the promotion and award of tenure to faculty. In the event that the board of trustees of Rutgers University-Camden takes any action that would violate these standards, then it would no longer be able to use the designation “Rutgers.”

The bill directs the board of governors of Rutgers, The State University to enter into a lease, use and occupancy, or other utilization agreement with the board of trustees of Rutgers University-Camden for a term of 99 years under which Rutgers University-Camden will be permitted to use and occupy all property and assets real or personal constituting the Rutgers University-Camden campus. However the property and assets subject to the utilization agreement will remain the property of Rutgers, The State University, but Rutgers will have no responsibility or control over the property and assets during the term of the agreement. There will be a payment of $1 per year made by Rutgers University-Camden to the board of governors of Rutgers University, as well as the payment of the allocable portion of debt service on bonds, notes, or other obligations issued by Rutgers University directly related to the facilities and property of Rutgers University-Camden. At the end of the term of the utilization agreement, Rutgers University-Camden will have the option to purchase the property at fair market value.

The Rutgers University board of governors and the Rutgers University-Camden board of trustees will also enter into an agreement in regard to participation of the campus in the central administrative services and systems provided by Rutgers University, such as the library system and information technology systems.

The bill establishes the Rowan University-Rutgers Camden Board of Governors. Under the bill, the authorities granted to the boards of trustees at Rutgers University-Camden and Rowan University will be subject to the approval of the board. In addition, the bill authorizes the board to: approve or disapprove of any decision of the board of trustees of Rowan University or the board of trustees of Rutgers University-Camden; determine policies for the organization, administration, and development of curriculum and programs of Rowan University and Rutgers University-Camden, including dual degree programs and partnerships between the institutions; make joint faculty appointments to Rowan University and Rutgers University-Camden; determine policies for the shared utilization of each institution’s resources including housing, student affairs, and security; provide curricular oversight of joint programs of Rowan University and Rutgers University-Camden; and develop plans and policies for the operation and governance of health science facilities, including policies concerning the development and financing of capital improvements or expansions of health science facilities.

Under the bill, Rowan University is established as a public research university along with Rutgers, The State University and the
New Jersey Institute of Technology. Currently, Rowan University is one of nine State colleges organized pursuant to chapter 64 of Title 18A of the New Jersey Statutes.

The current board of trustees of Rowan University is continued. The board of trustees is given authority similar to that of the boards of the other public research universities in the State, including the authority to participate as the general partner or as a limited partner, either directly or through a subsidiary corporation created by the university, in limited partnerships, general partnerships, or joint ventures engaged in the development, manufacture, or marketing of products, technology, scientific information or health care services.

University Hospital, will be reviewed by the University Hospital
Community Oversight Board and approved by the Department of Health and Senior Services through a licensing review process.

**FISCAL IMPACT:**

Treasury indicates that the bill will produce net savings from bond refinancing and the elimination of duplicative functions. The Executive and Rutgers University have independently estimated the impact of certain aspects of the bill. The Office of Legislative Services (OLS) has not obtained sufficient information to produce a comprehensive analysis of the bill.

Rutgers University estimates the bill will necessitate the defeasance of its outstanding bond indebtedness at a cost of $155 million. The Executive offers no estimate of the impact of Rutgers University’s refunding of the outstanding bonds because it assumes the bill will not violate any bond covenants. The OLS acknowledges the possibility, but not the certainty, that the bill would require defeasance of the debt, and has no information upon which to base an estimate of such costs. In addition, Rutgers University may be required to refund $494.3 million of outstanding debt transferred from the University of Medicine and Dentistry of New Jersey (UMDNJ). The Executive estimates a net present value savings of $43.6 million, due to lower interest rates, if the debt were refunded. The OLS cannot independently verify the ratings on such bonds nor the potential for restructuring costs or savings that could result.

University Hospital has $110.0 million in outstanding bond debt and $101.2 million in liabilities from the various units of UMDNJ. The Executive assumes that University Hospital can refund the bonds with bonds backed by the credit of the State and that doing so could result in net present value savings of $8.5 million. The OLS neither concurs nor disagrees with these assessments, but notes that University Hospital may need additional State appropriations to maintain its current level of operations and to refund University Hospital debt. The Executive does not consider the $101.2 million as a liability owed by University Hospital to UMDNJ.

Rutgers University estimates $20-$40 million for transition costs associated with acquiring and integrating UMDNJ, except for the School of Osteopathic Medicine and University Hospital. Rowan University has not provided an estimate for transition costs associated with acquiring and integrating the School of Osteopathic Medicine. The Executive anticipates one-time expenditures borne by Rutgers University and Rowan University for their respective acquisitions, but does not identify any specific costs. The OLS notes that the bill provides that the State will reimburse Rutgers University for any costs or losses associated with undisclosed liabilities of UMDNJ that were not reasonably foreseen or contemplated at the time of the transfer. The OLS cannot estimate the amount the State would reimburse
Rutgers University, and notes that such reimbursements are subject to annual appropriations.

The Executive offers no analysis about the liabilities arising from claims against University Hospital. The OLS notes that the bill does not include University Hospital in the Self-Insurance Reserve Fund and that University Hospital may be required to obtain its own insurance, the size and costs of which cannot be determined. The OLS notes that the bill allows Rutgers University and Rowan University to participate in the Self-Insurance Reserve Fund for medical malpractice claims, or if the institutions elect not to participate, to obtain their own medical malpractice insurance. The OLS cannot estimate the costs of obtaining insurance nor the size needed or desired by each institution.

Given the complexities of the bill and the entities to which it applies, and the absence of significant information to assess the bill’s fiscal impact, the OLS notes the possibility that the bill could cause significant unanticipated costs to Rutgers University, Rowan University, University Hospital, and the State, as well as potential savings and benefits.
These floor amendments do the following:

- provide that any school, institute, or center of Rutgers, The State University based in Middlesex County will remain in Middlesex County;
- provide that the transfer of the schools institutes, and centers of the University of Medicine and Dentistry of New Jersey to Rutgers University will require the accreditation approval of the appropriate accrediting bodies;
- revise the governance structure proposed in the bill for Rutgers University-Camden to a campus board of directors that will have the authority to determine policies for the organization, administration, and development of Rutgers University-Camden, subject to the policies of Rutgers, The State University;
- remove provisions in the bill that would have enabled Rutgers University-Camden to set its own tuition and fees, borrow money for its needs, and purchase lands, buildings, equipment, materials, and supplies;
- remove a provision in the bill that would have given the Rowan University-Rutgers Camden Board of Governors authority over all matters concerning the supervision and operations of Rowan University and Rutgers University-Camden;
- provide that the Rowan University-Rutgers Camden Board of Governors will have the authority to approve or disapprove the establishment or expansion of any schools, programs, or departments after the bill’s effective date in the area of the health sciences;
- direct Rowan University and Rutgers University-Camden to appropriate $2.5 million per year to the Rowan University-Rutgers Camden Board of Governors for administration and other necessary expenses;
- remove a provision in the bill that directed the board of governors of Rutgers University to enter into a 99-year lease with Rutgers University-Camden;
- increase the number of members on the Rutgers University-Newark campus advisory board from 11 to 13 by the
addition of two public members who are resident of a northern county; and

- provide that of the members of the board of governors of Rutgers, The State University who are appointed by the Governor, one must be a resident of Camden County.

82. Section 4 of P.L.2009, c.4 (C.18A:65A-1) is amended to read as follows:

4. a. The board of trustees of a public institution of higher education may implement an energy savings improvement program in the manner provided by this section whenever it determines that the savings generated from reduced energy use from the program will be sufficient to cover the cost of the program's energy conservation measures as set forth in an energy savings plan. Under such a program, a board of trustees may enter into an energy...
savings services contract with an energy services company to implement the program or the board may authorize separate contracts to implement the program. The provisions of:

N.J.S.18A:64-1 et seq., in the case of any State college; P.L.1995, c.400 (C.18A:64E-12 et seq.), in the case of the New Jersey Institute of Technology; N.J.S.18A:65-1 et seq., in the case of Rutgers, the State University; [P.L.1970, c.102 (C.18A:64G-1 et al.), in the case of the University of Medicine and Dentistry of New Jersey]; P.L., c. (C. ) (pending before the Legislature as this bill), in the case of Rowan University; and N.J.S.18A:64A-1 et seq., in the case of the county colleges; shall apply to any contracts awarded pursuant to this section to the extent that the provisions of such law are not inconsistent with any provision of this section.

In the case of Rutgers, the State University, references in this section to the board of trustees shall mean the Rutgers board of governors.

b. (1) To be eligible to enter into an energy savings services contract, an energy services company shall be a commercial entity that is qualified to provide energy savings services in accordance with the provisions of this section. A public institution of higher education may enter into an energy savings services contract through public advertising for bids and the receipt of bids therefor.

(2) (a) Public works activities performed under an energy savings improvement program shall be subject to all requirements regarding public bidding, bid security, performance guarantees, insurance and other public contracting requirements that are applicable to public works contracts, to the extent not inconsistent with this section. A general contractor, energy services company serving as general contractor, or any subcontractor hired for the furnishing of plumbing and gas fitting and all kindred work, and of steam and hot water heating and ventilating apparatus, steam power plants and kindred work, and electrical work, structural steel and ornamental iron work, shall be classified by the Division of Property Management and Construction in the Department of the Treasury in order to perform public works activities under an energy savings improvement program.

(b) Individuals or organizations performing energy audits, acting as commissioning agents, or conducting verification of energy savings plans, implementation of energy conservation measures, or verifying guarantees shall be prequalified by the Division of Property Management and Construction in the Department of the Treasury to perform their work under an energy savings improvement program.

(c) Where there is a need for compatibility of a direct digital control system with previously installed control systems and equipment, the bid specifications may include a requirement for proprietary goods, and if so included, the bid specification shall set
forth an allowance price for its supply which shall be used by all
bidders in the public bidding process.

(3) An energy services company may be designated as the
general contractor for improvements to be made pursuant to an
energy savings plan, provided that the hiring of subcontractors that
are required to be classified pursuant to subparagraph (a) of
paragraph (2) of this subsection shall be performed pursuant to the
public bidding requirements of the board of trustees. A contract
with an energy savings company shall include, but not be limited to:
preparation of an energy savings plan, the responsibilities of the
parties for project schedules, installations, performance and quality,
payment of subcontractors, project completion, commissioning,
savings implementation; a requirement that the savings to be
achieved by energy conservation measures be verified upon
commissioning of the improvements; allocation of State and federal
rebates and tax credits; and any other provisions deemed necessary
by the parties.

(4) Except as provided in paragraph (5) of this subsection, a
subsidiary or wholly-owned or partially-owned affiliate of the
energy services company shall not be an eligible contractor or
subcontractor under an energy savings services contract.

(5) When the energy services company is the manufacturer of
direct digital control systems and contracts with the board of
trustees to provide a guaranteed energy savings option pursuant to
subsection f. of this section, the specification of such direct digital
control systems may be treated as proprietary goods and if so
treated, the bid specification shall set forth an allowance price for
its supply by the energy services company which shall be used by
all bidders in the public bidding process. Direct digital controls
shall be open protocol format and shall meet the interoperability
guidelines established by the American Society of Heating,
Refrigerating and Air-Conditioning Engineers.

c. An energy savings improvement program may be financed
through a lease-purchase agreement or through the issuance of
energy savings obligations pursuant to this subsection.

(1) An energy savings improvement program may be financed
through a lease-purchase agreement between a board of trustees and
an energy services company or other public or private entity. Under
a lease-purchase agreement, ownership of the energy savings
equipment or improved facilities shall pass to the board of trustees
when all lease payments have been made. Notwithstanding the
provisions of any other law to the contrary, the duration of such a
lease-purchase agreement shall not exceed 15 years, except that the
duration of a lease purchase agreement for a combined heat and
power or cogeneration project shall not exceed 20 years.

(2) Any lease-purchase or other agreement entered into in
connection with an energy savings improvement program may be a
general obligation of the public institution of higher education
pursuant to this subsection, and may contain: a clause making it
subject to the availability and appropriation annually of sufficient
funds as may be required to meet the extended obligation; and a
non-substitution clause maintaining that if the agreement is
terminated for non-appropriation, the board of trustees may not
replace the leased equipment or facilities with equipment or
facilities that perform the same or similar functions.

(3) A board of trustees may arrange for incurring energy savings
obligations to finance an energy savings improvement program and
may enter into any agreement with the New Jersey Educational
Facilities Authority or other persons in connection with the issuance
by the authority of its obligations on behalf of the public institution
of higher education in order to finance the institution's energy
savings improvement program. Energy savings obligations may be
funded through appropriations for utility services in the annual
budget of the board, or incurred as a general obligation of the public
institution of higher education in connection with the issuance by
the New Jersey Educational Facilities Authority of bonds or notes
pursuant to N.J.S.18A:72A-2 et seq., or, in the case of a county
college, by a sponsoring county as a refunding bond pursuant to
N.J.S.40A:2-52 et seq., including the issuance of bond anticipation
notes as may be necessary, provided that all such bonds and notes
mature within the periods authorized for such energy savings
obligations.

(4) Lease-purchase agreements and energy savings obligations
shall not be used to finance maintenance, guarantees, or verification
of guarantees of energy conservation measures. Lease-purchase
agreements and energy savings obligations may be used to finance
the cost of an energy audit or the cost of verification of energy
savings as part of adopting an energy savings plan. Maturity
schedules of lease-purchase agreements or energy savings
obligations must exceed the estimated useful life of the individual
energy conservation measures.

d. (1) The energy audit component of an energy savings
improvement program shall be conducted either by the board of
trustees or by a qualified third party retained by the board for that
purpose. It shall not be conducted by an energy services company
subsequently hired to develop an energy savings improvement
program. The energy audit shall identify the current energy use of
any or all facilities and energy conservation measures that can be
implemented in which the energy savings and energy efficiency
could be realized and maximized.

(2) To implement an energy savings improvement program, a
board of trustees shall develop an energy savings plan that consists
of one or more energy conservation measures. The plan shall:

(a) contain the results of an energy audit;

(b) describe the energy conservation measures that will
comprise the program;
(c) estimate greenhouse gas reductions resulting from those energy savings;
(d) identify all design and compliance issues that require the professional services of an architect or engineer and identify who will provide these services;
(e) include an assessment of risks involved in the successful implementation of the plan;
(f) identify the eligibility for, and costs and revenues associated with the PJM Independent System Operator for demand response and curtailable service activities;
(g) include schedules showing calculations of all costs of implementing the proposed energy conservation measures and the projected energy savings;
(h) identify maintenance requirements necessary to ensure continued energy savings, and describe how they will be fulfilled; and
(i) if developed by an energy services company, a description of, and cost estimates of an energy savings guarantee.

All professionals providing engineering services under the plan shall have errors and omissions insurance.

(3) Prior to the adoption of the plan, the board of trustees shall contract with a qualified third party to verify the projected energy savings to be realized from the proposed program have been calculated as required by subsection e. of this section.

(4) Upon adoption, the plan shall be submitted to the Board of Public Utilities, which shall post it on the Internet on a public webpage maintained for such purpose. If the board of trustees maintains its own website, it shall also post the plan on that site. The Board of Public Utilities may require periodic reporting concerning the implementation of the plan.

(5) Verification by a qualified third party shall be required when energy conservation measures are placed in service or commissioned, to ensure the savings projected in the energy savings plan shall be achieved.

(6) Energy-related capital improvements that do not reduce energy usage may be included in an energy savings improvement program but the cost of such improvements shall not be financed as a lease-purchase or through energy savings obligations authorized by subsection c. of this section. Nothing herein is intended to prevent the financing of such capital improvements through otherwise authorized means.

(7) A qualified third party when required by this subsection may include an employee of the public institution of higher education who is properly trained and qualified to perform such work.

e. (1) The calculation of energy savings for the purposes of determining that the energy savings resulting from the program will be sufficient to cover the cost of the program's energy conservation measures, as provided in subsection a. of this section, shall involve
determination of the dollar amount saved through implementation
of an energy savings improvement program using the guidelines of
the International Performance Measurement and Verification
Protocol or other protocols approved by the Board of Public
Utilities and standards adopted by the Board of Public Utilities
pursuant to this section. The calculation shall include all applicable
State and federal rebates and tax credits, but shall not include the
cost of an energy audit and the cost of verifying energy savings.
The calculation shall state which party has made application for
rebates and credits and how these applications translate into energy
savings.

(2) For the purposes of this section, the Board of Public Utilities
shall adopt standards and uniform values for interest rates and
escalation of labor, electricity, oil, and gas, as well as standards for
presenting these costs in a life cycle and net present value format,
standards for the presentation of obligations for carbon reductions,
and other standards that the board may determine necessary.

f. (1) When an energy services company is awarded an energy
savings services contract, it shall offer the board of trustees the
option to purchase, for an additional amount, an energy savings
guarantee. The guarantee, if accepted by a separate vote of the
board of trustees, shall insure that the energy savings resulting from
the energy savings improvement program, determined periodically
over the duration of the guarantee, will be sufficient to defray all
payments required to be made pursuant to the lease-purchase
agreement or energy savings obligation, and if the savings are not
sufficient, the energy services company will reimburse the board of
trustees for any additional amounts. Annual costs of a guarantee
shall not be financed or included as costs in an energy savings plan
but shall be fully disclosed in an energy savings plan.

(2) When a guaranteed energy savings option is purchased, the
contract shall require a qualified third party to verify the energy
savings at intervals established by the parties.

g. As used in this section:
"direct digital control systems” means the devices and
computerized control equipment that contain software and computer
interfaces that perform the logic that control a building's heating,
ventilating, and air conditioning system. Direct digital controls
shall be open protocol format and shall meet the interoperability

Refrigerating and Air-Conditioning Engineers;

measures and other structures or facilities related thereto or required
or useful for the instruction of students or the conducting of
research or the operation of an institution for higher education, and
public libraries, and the necessary and usual attendant and related
facilities and equipment, but shall not include any facility used or to
be used for sectarian instruction or as a place for religious worship;
"energy conservation measure" means an improvement that
results in reduced energy use, including, but not limited to,
installation of energy efficient equipment; demand response
equipment; combined heat and power systems; facilities for the
production of renewable energy; water conservation measures,
fixtures or facilities; building envelope improvements that are part
of an energy savings improvement program; and related control
systems for each of the foregoing;
"energy related capital improvement" means a capital
improvement that uses energy but does not result in a reduction of
energy use;
"energy saving obligation" means a bond, note or other
agreement evidencing the obligation to repay borrowed funds
incurred in order to finance energy saving improvements;

during such 14-day period with the employer who was the

(3) "Base week" with respect to periods of disability
commencing on or after October 1, 1985 and before January 1,
2001, means any calendar week during which a covered individual

dividing a covered individual's total wages earned from the

then the average weekly wage shall, upon a written request to the
department by the individual on a form provided by the department,  
be computed by the department on the basis of earnings from all  
covered employers of the individual during the base weeks in those  
26 calendar weeks, and, in the case of a claim for benefits from a  
private plan, that computation of the average weekly wage shall be  
provided by the department to the individual and the individual's  
employer.  
When determining the "average weekly wage" with respect to a  
period of family temporary disability leave for an individual who  
has a period of family temporary disability immediately after the  
individual has a period of disability for the individual's own

necessary by a serious health condition of the family member; or (2)  
be with a child during the first 12 months after the child's birth, if  
the individual, or the domestic partner or civil union partner of the  
individual, is a biological parent of the child, or the first 12 months  
after the placement of the child for adoption with the individual.  
"Family temporary disability leave" does not include any period of  
time in which a covered individual is paid benefits pursuant to  
P.L.1948, c.110 (C.43:21-25 et al.) because the individual is unable  
to perform the duties of the individual's employment due to the  
individual's own disability.  
p) "Health care provider" means a health care provider as

There shall be deposited in and credited to the fund the amount of worker and employer contributions provided under subparagraph (G) of paragraph (1) of subsection (d) of R.S.43:21-7 and subsection (e) of R.S.43:21-7, less refunds authorized by the chapter (R.S.43:21-1 et seq.) to which this act is a supplement, and the entire amount of interest and earnings from investments of the fund, and all assessments, fines and penalties collected under this act. The fund shall be held in trust for the payment of disability benefits pursuant to this act, for the payment of benefits pursuant to subsection (f) of R.S. 43:21-4, and for the payment of any authorized refunds of contributions. All warrants for the payment of benefits shall be issued by and bear only the signature of the Director of the Division of Unemployment and Temporary Disability Insurance or his duly authorized agent for that purpose. All other moneys withdrawn from the fund shall be upon warrant signed by the State Treasurer and countersigned by the Director of the Division of Unemployment and Temporary Disability Insurance of the Department of Labor of the State of New Jersey. The Treasurer shall maintain books, records and accounts for the fund, appoint personnel and fix their compensation within the limits of available appropriations. hereinafter provided, for costs of administration prorated among
approved private plans. The costs of administration of this act,
including R.S.43:21-4(f), shall be charged to the administration
account.
(b) further separate account, to be known as the unemployment
disability account, shall be maintained in the fund. Such account

Prior to July 1 of each calendar year, the Division of
Unemployment and Temporary Disability Insurance of the
Department of Labor of the State of New Jersey shall determine the

credited to the unemployment disability account as of the end of the
preceding calendar year.
If the unemployment disability account shall show an accumulated
deficit in excess of $200,000.00 at the end of any calendar year
after interest and other earnings have been credited as provided
hereinabove, the division shall determine the ratio of such deficit to
the total of all taxable wages paid during the preceding calendar
year, and shall make an assessment against all employers in an
amount equal to the taxable wages paid by them during such
preceding calendar year to employees, multiplied by such ratio, but
in no event shall any such assessment exceed 1/10 or 1% of such
wages; provided, however, that the assessment made against the
State (including Rutgers, The State University [ ], the University of
Medicine and Dentistry of New Jersey [ ] and the New Jersey
Institute of Technology) shall not exceed the sum of all benefits
paid under the provisions of R.S.43:21-4(f) as the result of
employment with the State. Such amounts shall be collectible by
the division in the same manner as provided for the collection of
employee contributions under this chapter (R.S.43:21-1 et seq.). In
making this assessment, the division shall furnish to each affected
employer a brief summary of the determination thereof. The
amount of such assessments collected by the division shall be
credited to the unemployment disability account.
As used in this section, "taxable wages" shall mean wages with
respect to which employer contributions have been paid or are
payable pursuant to subsections (a), (b) and (c) of R.S.43:21-7.
(c) A board of trustees, consisting of the State Treasurer, the
Secretary of State, the Commissioner of Labor and Industry, the
director of the division, and the State Comptroller, is hereby
created. The board shall invest and reinvest all moneys in the fund
in excess of its cash requirements, and such investments shall be
made in obligations legal for savings banks; provided, however, that
the provisions of this subsection shall in all respects be subject to
the provisions of P.L.1950, c.270 (C.52:18A-79 et seq.).
(d) There is hereby appropriated, to be paid out of the fund, such
amounts as may from time to time be required for the payment of
disability benefits, and such amounts as may be required each year,
as contained in the annual appropriation act, for the administration
of this act, including R.S.43:21-4(f).

STATEMENT

This bill, the “New Jersey Medical and Health Sciences Education Restructuring Act,” implements numerous changes to the State’s public system of higher education.

The bill transfers all schools, institutes, and centers of the University of Medicine and Dentistry of New Jersey, other than the School of Osteopathic Medicine, to Rutgers, The State University. The bill provides for the appropriate transfer of: facilities; appropriations, grants and other moneys available to the transferred entities; employees of; and all files, books, papers, records, equipment, and other property of the transferred entities to Rutgers, The State University. The bill provides that all orders, rules or regulations made or promulgated by the schools, institutes, and centers, or by the University of Medicine and Dentistry of New Jersey on their behalf, will be continued with full force and effect as the orders, rules and regulations of Rutgers, The State University until amended or repealed pursuant to law. The bill further provides that the bill will not affect any actions or proceedings, civil or criminal, brought by or against the schools, institutes, and centers of the University of Medicine and Dentistry of New Jersey.

The bill provides that all debts of the University of Medicine and Dentistry associated with the schools, institutes, and centers will be transferred to Rutgers, The State University.

This bill also transfers the School of Osteopathic Medicine of the University of Medicine and Dentistry of New Jersey to Rowan University. The bill provides for the appropriate transfer of:
facilities; appropriations, grants and other moneys available to the
school; employees of; and all files, books, papers, records, 
equipment, and other property of the school to Rowan University. 
The bill provides that all orders, rules or regulations made or 
pronounced by the school, or by the University of Medicine and 
Dentistry of New Jersey on its behalf, will be continued with full 
force and effect as the orders, rules and regulations of Rowan 
University until amended or repealed pursuant to law. The bill 
further provides that the bill will not affect any actions or 
proceedings, civil or criminal, brought by or against the School of 
Osteopathic Medicine. 

The bill provides that all debts of the University of Medicine and 
Dentistry of New Jersey associated with the School of Osteopathic 
Medicine will be transferred to Rowan University. 
The bill provides protections for University of Medicine and 
Dentistry of New Jersey employees with regard to pension rights, 
health benefits, collective bargaining, and civil service status if any, 
as well as the tenure, rank, or academic track of any person holding 
a faculty position, who may be transferred to, or otherwise become 
employees of, Rutgers, The State University or Rowan University 
as a result of a reorganization pursuant or subsequent to the bill. 
The employees, upon transfer to a new entity, are to retain any 
accrued seniority, rank, and tenure, which are to be applied when 
determining eligibility for all benefits, including all paid leave time, 
longevity increases, and promotions.

The bill designates University Hospital as the principal teaching 
hospital of New Jersey Medical School, but stipulates that 
University Hospital is to be treated and accounted for as a separate 
legal entity from the university, and prohibits its assets, liabilities, 
and funds from being consolidated or commingled with those of the 
university.

The bill requires that all monies allocated to the University of 
Medicine and Dentistry of New Jersey for the use of University 
Hospital, regardless of their source, and which remain unexpended 
on the effective date of the bill, be transferred to the hospital, and 
that all appropriations intended for the use of University Hospital, 
on or after the effective date of the bill, be made directly to the 
hospital.

The bill establishes a nine-member board, to be designated as the 
University Hospital Community Oversight Board, which is 
responsible for ensuring community access to services provided at 
University Hospital. The membership of the board is comprised of: 
(1) four ex officio members, including the President of Rutgers 
University; and the Chief Executive Officer, Chief Financial 
Officer, and Chief Medical Officer of University Hospital; and (2) 
five public members, including two representatives of organized 
labor appointed by the heads of labor unions that represent persons 
employed at University Hospital and three persons with one each
appointed by the Governor with the advice and consent of the Senate, the President of the Senate, and the Speaker of the General Assembly. The board is to meet at such times and places as it designates, and University Hospital is to provide such staff support to the board as it deems necessary to carry out its duties.

The bill provides protections for University Hospital officers and employees with regard to pension rights, health benefits, collective bargaining, and civil service status if any, as well as the tenure, rank, or academic track of any person holding a faculty position that is associated with University Hospital, who may be transferred to, or otherwise become employees of, a new entity as a result of a restructuring or reorganization pursuant or subsequent to the bill. The employees, upon transfer to a new entity, are to retain any accrued seniority, rank, and tenure, which are to be applied when determining eligibility for all benefits, including all paid leave time, longevity increases, and promotions.

The bill requires that University Hospital obtain approval from the Superior Court of New Jersey prior to entering into a transaction that results in the acquisition of the hospital, and satisfy the requirements of the “Community Health Care Assets Protection Act,” P.L.2000, c.143 (C.26:2H-7.10 et seq.), to the maximum extent to which those provisions are determined applicable by the Attorney General, in consultation with the Commissioner of Health and Senior Services.

The bill adds three nonvoting, ex-officio members to the University Hospital Board of Directors, as follows: the Dean of New Jersey Medical School, the Dean of New Jersey Dental School; and the Commissioner of Health and Senior Services. In addition, the bill revises the existing membership of the board of directors by replacing the four ex-officio members of the University Hospital Board of Trustees with four public members appointed by the Governor, with the advice and consent of the Senate, in addition to the five public members of the board of directors who are already appointed in that manner. A person who is a member of the board of directors on the effective date of the bill would, however, be permitted to serve for the balance of the term for which that person was appointed.

This bill establishes new governance structures for Rutgers University-Newark and Rutgers University-Camden. Under the bill’s provisions, a board of governors is established at Rutgers University–Newark. The membership of the board will include the chancellor of Rutgers University-Newark, two members appointed by the board of governors of Rutgers University from among its members, one member appointed by the board of trustees of Rutgers University from among its members, and four members who are residents of the northern counties of the State appointed by the Governor. The campus board of governors will have authority to: maintain a separate debt service account for Rutgers University-
Newark; propose capital projects and bonding for Rutgers University-Newark to the board of governors of Rutgers University; propose an annual budget for Rutgers University-Newark to the board of governors of Rutgers University; recommend new academic programs and degree requirements for Rutgers University-Newark to the board of governors of Rutgers University; and recommend candidates for promotion and tenure at Rutgers University-Newark to the board of governors of Rutgers University.

Under the bill’s provisions, a campus board of trustees is established at Rutgers University-Camden. The membership of the board will include the chancellor of Rutgers University-Camden, two members appointed by the board of governors of Rutgers University from among its members, one member appointed by the board of trustees of Rutgers University from among its members, and four members who are residents of the southern counties of the State appointed by the Governor.

The campus board of trustees of Rutgers University-Camden will have authority similar to that of the board of governors of the university, such as setting tuition and fees, disbursing funds appropriated to each of those campuses, preparing an annual budget, planning for capital projects, and entering into contracts for the construction of such projects. However, the board of governors of Rutgers University will determine standards for the establishment and evaluation of academic programs, standards for the award of degrees, and standards for the promotion and award of tenure to faculty.

Under the bill’s provisions, the board of governors of Rutgers University will continue to hold title to the property and assets located on Rutgers University-Camden. However, the board of governors will enter into a 99-year lease agreement with the campus board of trustees under which the board of governors will have no responsibility or control over the property and assets. Under the lease agreements, the board of trustees of Rutgers University-Camden will make an annual payment of $1 and will also pay any debt service associated with the facilities and properties located on the campus. At the end of the lease agreement Rutgers University-Camden will have the option to purchase the property at fair market value.

The Rutgers University board of governors and the Rutgers University-Camden board of trustees will also enter into an agreement in regard to participation of the campus in the central administrative services and systems provided by Rutgers University, such as the library system and information technology systems.

The bill establishes the Joint Rowan University-Rutgers Camden Board of Governors. Under the bill, the authorities granted to the boards of trustees at Rutgers University-Camden and Rowan University will be subject to the approval of the joint board. In
addition, the bill authorizes the joint board to: approve or
disapprove of any decision of the board of trustees of Rowan
University or the board of trustees of Rutgers University-Camden;
determine policies for the organization, administration, and
development of curriculum and programs of Rowan University and
Rutgers University-Camden, including dual degree programs and
partnerships between the institutions; make joint faculty
appointments to Rowan University and Rutgers University-Camden;
determine policies for the shared utilization of each institution’s
resources including housing, student affairs, and security; provide
curricular oversight of joint programs of Rowan University and
Rutgers University-Camden; and develop plans and policies for the
operation and governance of health science facilities, including
policies concerning the development and financing of capital
improvements or expansions of health science facilities

Under the bill, Rowan University is established as a public
research university along with Rutgers, The State University and
the New Jersey Institute of Technology. Currently, Rowan
University is one of nine State colleges organized pursuant to
chapter 64 of Title 18A of the New Jersey Statutes.

Under this bill, the current board of trustees of Rowan University
is continued. The board of trustees is given authority similar to that
of the boards of the other public research universities in the State,
including the authority to participate as the general partner or as a
limited partner, either directly or through a subsidiary corporation
created by the university, in limited partnerships, general
partnerships, or joint ventures engaged in the development,
manufacture, or marketing of products, technology, scientific
information or health care services.

hospital of New Jersey Medical School and New Jersey Dental School,
but stipulates that University Hospital is to be treated and accounted
for as a separate legal entity from the university, and prohibits its
assets, liabilities, and funds from being consolidated or commingled
with those of the university.

The bill requires that all monies allocated to the University of
Medicine and Dentistry of New Jersey for the use of University
Hospital, regardless of their source, and which remain unexpended on
the effective date of the bill, be transferred to the hospital, and that all
appropriations intended for the use of University Hospital, on or after
the effective date of the bill, be made directly to the hospital.

The bill establishes a nine-member board, to be designated as the
University Hospital Community Oversight Board, which is responsible
for ensuring community access to services provided at University
Hospital. The membership of the board is comprised of: (1) four ex
officio members, including the President of Rutgers University; and
the Chief Executive Officer, Chief Financial Officer, and Chief
Medical Officer of University Hospital; and (2) five public members,
including two representatives of organized labor appointed by the
heads of labor unions that represent persons employed at University
Hospital and three persons with one each appointed by the Governor
with the advice and consent of the Senate, the President of the Senate,
and the Speaker of the General Assembly. The board is to meet at
such times and places as it designates, and University Hospital is to
provide such staff support to the board as it deems necessary to carry
out its duties.

The bill provides protections for University Hospital officers and
employees with regard to pension rights, health benefits, collective
bargaining, and civil service status if any, as well as the tenure, rank,
or academic track of any person holding a faculty position that is
associated with University Hospital, who may be transferred to, or
otherwise become employees of, a new entity as a result of a restructuring or reorganization pursuant or subsequent to the bill. The employees, upon transfer to a new entity, are to retain any accrued seniority, rank, and tenure, which are to be applied when determining eligibility for all benefits, including all paid leave time, longevity increases, and promotions.

The bill requires that University Hospital obtain approval from the Superior Court of New Jersey prior to entering into a transaction that results in the acquisition of the hospital, and satisfy the requirements of the “Community Health Care Assets Protection Act,” P.L.2000, c.143 (C.26:2H-7.10 et seq.), to the maximum extent to which those provisions are determined applicable by the Attorney General, in consultation with the Commissioner of Health and Senior Services.

The bill adds three nonvoting, ex-officio members to the University Hospital Board of Directors, as follows: the Dean of New Jersey Medical School, the Dean of New Jersey Dental School; and the Commissioner of Health and Senior Services. In addition, the bill revises the existing membership of the board of directors by replacing the four ex-officio members of the University Hospital Board of Trustees with four public members appointed by the Governor, with the advice and consent of the Senate, in addition to the five public members of the board of directors who are already appointed in that manner. A person who is a member of the board of directors on the effective date of the bill would, however, be permitted to serve for the balance of the term for which that person was appointed.

This bill establishes new governance structures for Rutgers University-Newark and Rutgers University-Camden. Under the bill’s provisions, a board of governors is established at Rutgers University – Newark. The membership of the board will include the chancellor of Rutgers University-Newark, two members appointed by the board of governors of Rutgers University from among its members, one member appointed by the board of trustees of Rutgers University from among its members, and four members who are residents of the northern counties of the State appointed by the Governor. The campus board of governors will have authority to: maintain a separate debt service account for Rutgers University-Newark; propose capital projects and bonding for Rutgers University-Newark to the board of governors of Rutgers University; propose an annual budget for Rutgers University-Newark to the board of governors of Rutgers University; recommend new academic programs and degree requirements for Rutgers University-Newark to the board of governors of Rutgers University; and recommend candidates for promotion and tenure at Rutgers University-Newark to the board of governors of Rutgers University.

Under the bill’s provisions, a campus board of trustees is established at Rutgers University-Camden. The membership of the board will include the chancellor of Rutgers University-Camden, two
members appointed by the board of governors of Rutgers University from among its members, one member appointed by the board of trustees of Rutgers University from among its members, and four members who are residents of the southern counties of the State appointed by the Governor.

The campus board of trustees of Rutgers University-Camden will have authority similar to that of the board of governors of the university, such as setting tuition and fees, disbursing funds appropriated to each of those campuses, preparing an annual budget, planning for capital projects, and entering into contracts for the construction of such projects. However, the board of governors of Rutgers University will determine standards for the establishment and evaluation of academic programs, standards for the award of degrees, and standards for the promotion and award of tenure to faculty.

Under the bill’s provisions, the board of governors of Rutgers University will continue to hold title to the property and assets located on Rutgers University-Camden. However, the board of governors will enter into a 99-year lease agreement with the campus board of trustees under which the board of governors will have no responsibility or control over the property and assets. Under the lease agreements, the board of trustees of Rutgers University-Camden will make an annual payment of $1 and will also pay any debt service associated with the facilities and properties located on the campus. At the end of the lease agreement Rutgers University-Camden will have the option to purchase the property at fair market value.

The Rutgers University board of governors and the Rutgers University-Camden board of trustees will also enter into an agreement in regard to participation of the campus in the central administrative services and systems provided by Rutgers University, such as the library system and information technology systems.

The bill establishes the Joint Rowan University-Rutgers Camden Board of Governors. Under the bill, the authorities granted to the boards of trustees at Rutgers University-Camden and Rowan University will be subject to the approval of the joint board. In addition, the bill authorizes the joint board to: approve or disapprove of any decision of the board of trustees of Rowan University or the board of trustees of Rutgers University-Camden; determine policies for the organization, administration, and development of curriculum and programs of Rowan University and Rutgers University-Camden, including dual degree programs and partnerships between the institutions; make joint faculty appointments to Rowan University and Rutgers University-Camden; determine policies for the shared utilization of each institution’s resources including housing, student affairs, and security; provide curricular oversight of joint programs of Rowan University and Rutgers University-Camden; and develop plans and policies for the operation and governance of health science
facilities, including policies concerning the development and financing of capital improvements or expansions of health science facilities.

Under the bill, Rowan University is established as a public research university along with Rutgers, The State University and the New Jersey Institute of Technology. Currently, Rowan University is one of nine State colleges organized pursuant to chapter 64 of Title 18A of the New Jersey Statutes.

Under this bill, the current board of trustees of Rowan University is continued. The board of trustees is given authority similar to that of the boards of the other public research universities in the State, including the authority to participate as the general partner or as a limited partner, either directly or through a subsidiary corporation created by the university, in limited partnerships, general partnerships, or joint ventures engaged in the development, manufacture, or marketing of products, technology, scientific information or health care services.

The committee amended the bill to provide that University Hospital will be the principal teaching hospital of New Jersey Dental School, in addition to New Jersey Medical School. The committee amendments also revise the provision of the bill which allows the board of directors of University Hospital to enter into a contract for the operation and management of the hospital. Under the amendments, such a contract could only be entered into with a nonprofit corporation. The bill in its original form would have authorized a contract with either a for-profit or not-for-profit entity.

The committee also amended the bill to provide that the School of Osteopathic Medicine must maintain a primary clinical affiliation with an osteopathic principal affiliate hospital, which must maintain sole responsibility for any graduate medical education program that is operated under its auspices and which receives funding through the Medicare program.
The Senate Budget and Appropriations Committee favorably reports Senate Bill No. 2063 (1R), with committee amendments.

The bill, designated as the “New Jersey Medical and Health Sciences Education Restructuring Act,” implements numerous changes to the State’s public system of higher education.

As amended, the bill transfers all schools, institutes, and centers of the University of Medicine and Dentistry of New Jersey (UMDNJ), other than the School of Osteopathic Medicine and University Hospital, to Rutgers, The State University. The bill provides that all debts of the University of Medicine and Dentistry associated with the schools, institutes, and centers will be transferred to Rutgers, The State University.

This bill also transfers the School of Osteopathic Medicine of the University of Medicine and Dentistry of New Jersey to Rowan University. The bill provides that all debts of UMDNJ incurred in the operation and administration of the School of Osteopathic Medicine and debt specifically and directly related to the real and personal property being transferred in Stratford will be transferred to Rowan University.

The bill provides protections for all employees of University Hospital and the institutions of higher education that may be impacted by the bill, including employees of UMDNJ, University Hospital, Rutgers University-Newark, Rutgers University-Camden, and Rowan University with regard to pension rights, health benefits, collective bargaining, and civil service status, as well as the tenure, rank, or academic track of any person holding a faculty position. The employees, upon transfer to a new entity, are to retain any accrued seniority, rank, and tenure, which are to be applied when determining eligibility for all benefits, including all paid leave time, longevity increases, and promotions.

The bill provides that UMDNJ employees will continue to be represented by the majority representative that represented them on the bill’s effective date, unless they choose to change their representative
pursuant to law. The bill provides that Rutgers, The State University, Rowan University, and University Hospital must assume all obligations under existing or expired collective negotiations agreements that covered employees of UMDNJ on the bill’s effective date for the employees that are transferred to those institutions. The bill further provides that employees in an existing UMDNJ negotiations unit who are transferred to or become employees of Rutgers, The State University, Rowan University, or University Hospital will be deemed to constitute an appropriate collective negotiations unit under the “New Jersey Employer-Employee Relations Act.”

The bill provides that a Labor Management Committee (LMC) must be established within 60 days of the bill’s effective date. The LMC will be comprised of one representative from each of the majority representatives representing employees of Rutgers, The State University and UMDNJ and representatives of the administration of Rutgers, The State University. The LMC will review all proposed restructuring and reorganization plans and will make recommendations to the board of governors of Rutgers, The State University regarding personnel and labor relations related to the proposed plans.

The bill designates University Hospital as the principal teaching hospital of New Jersey Medical School and New Jersey Dental School and any other Newark-based medical education program, but stipulates that University Hospital is to be treated and accounted for as a separate legal entity from Rutgers, The State University, and prohibits its assets, liabilities, and funds from being consolidated or commingled with those of Rutgers, The State University.

The bill requires that all monies allocated to UMDNJ for the use of University Hospital, regardless of their source, and which remain unexpended on the effective date of the bill, be transferred to the hospital, and that all appropriations intended for the use of University Hospital, on or after the effective date of the bill, be made directly to the hospital.

The bill establishes a nine-member advisory board, to be designated as the University Hospital Community Oversight Board. The purpose of the board is to ensure that the mission of the hospital and the intent of the “Newark Agreements” are upheld(124,774),(987,993)

The bill requires that University Hospital obtain approval from the Superior Court of New Jersey prior to entering into a transaction that results in the acquisition of the hospital, and satisfy the requirements of the “Community Health Care Assets Protection Act,” P.L.2000, c.143 (C.26:2H-7.10 et seq.). The bill establishes criteria to be considered by the Attorney General when making a determination that a proposed acquisition is in the public interest. The bill also provides that prior to entering into a contract with a nonprofit corporation for the management or operation of University Hospital, the Department
of Health and Senior Services will review and approve such contracts. The bill establishes criteria for such review and approval.

The bill adds three nonvoting, ex-officio members to the University Hospital Board of Directors, as follows: the Dean of New Jersey Medical School, the Dean of New Jersey Dental School; and the Commissioner of Health and Senior Services. In addition, the bill revises the existing membership of the board of directors by replacing the four ex-officio members of the University Hospital Board of Trustees with four public members appointed by the Governor, with the advice and consent of the Senate, in addition to the five public members of the board of directors who are already appointed in that manner. A person who is a member of the board of directors on the effective date of the bill would, however, be permitted to serve for the balance of the term for which that person was appointed.

The bill revises the membership of the board of governors of Rutgers, The State University. The bill increases the membership of the board from 11 to 15 voting members by: increasing the number of members appointed by the Governor from six to nine; and providing for the appointment of one member jointly by the President of the Senate and the Speaker of the General Assembly which member must be a resident of Essex County. The bill also provides that of the five members of the board of trustees of Rutgers University who serve on the board of governors, one must be a resident of Essex County and one must be a resident of Middlesex County.

This bill establishes new governance structures for Rutgers University-Newark and Rutgers University-Camden. Under the bill’s provisions, a board of governors is established at Rutgers University – Newark. The membership of the board will include the chancellor of Rutgers University-Newark, two members appointed by the board of governors of Rutgers University from among its members, one member appointed by the board of trustees of Rutgers University from among its members, and four members who are residents of the northern counties of the State appointed by the Governor. The campus board of governors will have authority to: maintain a separate debt service account for Rutgers University-Newark; propose capital projects and bonding for Rutgers University-Newark to the board of governors of Rutgers University; propose an annual budget for Rutgers University-Newark to the board of governors of Rutgers University; and recommend new academic programs and degree requirements for Rutgers University-Newark to the board of governors of Rutgers University. The bill directs the board of governors of Rutgers, The State University to appoint a second chancellor at Rutgers University-Newark to oversee the Newark-based schools, institutes and centers of UMDNJ that are transferred to Rutgers, The State University.

Under the bill’s provisions, a campus board of trustees is established at Rutgers University-Camden. The membership of the board will include the chancellor of Rutgers University-Camden, two
members appointed by the board of governors of Rutgers University from among its members, one member appointed by the board of trustees of Rutgers University from among its members, and four members who are residents of the southern counties of the State appointed by the Governor.

The campus board of trustees of Rutgers University-Camden will have authority similar to that of the board of governors of Rutgers University, such as setting tuition and fees, disbursing funds appropriated to each of those campuses, preparing an annual budget, planning for capital projects, and entering into contracts for the construction of such projects. However, the board of governors of Rutgers University will determine standards for the establishment and evaluation of academic programs, standards for the award of degrees, and standards for the promotion and award of tenure to faculty.

Under the bill’s provisions, the board of governors of Rutgers University will continue to hold title to the property and assets located on Rutgers University-Camden. However, the board of governors will enter into a 99-year lease agreement with the campus board of trustees under which the board of governors will have no responsibility or control over the property and assets. Under the lease agreement, the board of trustees of Rutgers University-Camden will make an annual payment of $1 and will also pay any debt service directly related to the facilities and properties located on the campus. At the end of the lease agreement Rutgers University-Camden will have the option to purchase the property at fair market value.

The Rutgers University board of governors and the Rutgers University-Camden board of trustees will also enter into an agreement in regard to participation of the campus in the central administrative services and systems provided by Rutgers University, such as the library system and information technology systems.

The bill establishes the Rowan University-Rutgers Camden Board of Governors. Under the bill, the authorities granted to the boards of trustees at Rutgers University-Camden and Rowan University will be subject to the approval of the board. In addition, the bill authorizes the board to: approve or disapprove of any decision of the board of trustees of Rowan University or the board of trustees of Rutgers University-Camden; determine policies for the organization, administration, and development of curriculum and programs of Rowan University and Rutgers University-Camden, including dual degree programs and partnerships between the institutions; make joint faculty appointments to Rowan University and Rutgers University-Camden; determine policies for the shared utilization of each institution’s resources including housing, student affairs, and security; provide curricular oversight of joint programs of Rowan University and Rutgers University-Camden; and develop plans and policies for the operation and governance of health science facilities, including
policies concerning the development and financing of capital improvements or expansions of health science facilities.

Under the bill, Rowan University is established as a public research university along with Rutgers, The State University and the New Jersey Institute of Technology. Currently, Rowan University is one of nine State colleges organized pursuant to chapter 64 of Title 18A of the New Jersey Statutes.

The current board of trustees of Rowan University is continued. The board of trustees is given authority similar to that of the boards of the other public research universities in the State, including the authority to participate as the general partner or as a limited partner, either directly or through a subsidiary corporation created by the university, in limited partnerships, general partnerships, or joint ventures engaged in the development, manufacture, or marketing of products, technology, scientific information or health care services.

COMMITTEE AMENDMENTS:

The committee amended the bill to:

- clarify that the transfer of all schools, institutes, and centers of UMDNJ to Rutgers, The State University does not include University Hospital;
- limit the debts being transferred to Rowan University as a result of the transfer of the School of Osteopathic Medicine to debts of UMDNJ incurred in the operation and administration of that school and debt related to the property being transferred in Stratford to Rowan University;

representatives of the administration of Rutgers, The State University;

• provide that in addition to the three additional voting members to be appointed by the Governor to the board of governors of Rutgers University, there will be another voting member added to the board of governors who will be appointed jointly by the President of the Senate and the Speaker of the General Assembly and who must be a resident of Essex County. The amendments also eliminate the requirement included in the original bill that the chairperson of the board of governors of Rutgers University-Newark be a member of the board of governors of Rutgers University;

• change the bill’s effective date to July 1, 2013 and provide that the bill will first apply to the 2013-2014 academic year. The bill in its original form had an effective date of 180 days after the date of enactment.

FISCAL IMPACT:
The Office of Legislative Services (OLS) cannot estimate the potential impact of the legislation due to key information that has not been made
available at this time. However, the OLS notes several areas of the bill that may have a fiscal impact.

Rutgers University

• There may be transition costs associated with acquiring and integrating the University of Medicine and Dentistry of New Jersey (UMDNJ), except for the School of Osteopathic Medicine, such as integrating information technology systems and payroll processing.
• Transferring the debt obligations of UMDNJ to Rutgers University may require Rutgers University to restructure or defease the bonds in order to satisfy bondholder obligations. The debt transfer to Rutgers University may also impact its bond rating and borrowing costs, but this may not be known until a bond credit rating agency such as Moody’s completes an analysis of the final reorganization plan.
• Rutgers University may be required to incur costs to defease its bonds after leasing the property and assets of Rutgers University – Camden.

University Hospital

• In prior years, University Hospital has incurred annual operating losses, which UMDNJ has consistently subsidized. In FY 2009-2010, the State appropriated $30.9 million for the “UMDNJ – Stabilization” which supported University Hospital operations. Under the bill, University Hospital would receive a direct State appropriation and due to its operating losses, may need additional State appropriations to maintain its current level of operations.
• University Hospital owes an unspecified amount to UMDNJ for funds that UMDNJ provided to cover the operating losses over the past few years.
• University Hospital may be required to obtain, at the minimum, medical malpractice insurance, for any claims or suits. A significant part of the $138 million in claims against UMDNJ involves University Hospital.
• Under the bill, University Hospital will be allowed to enter into an agreement with a non-profit corporation to operate and manage University Hospital, without a competitive bidding process. The costs of such an agreement are not yet known.

Rutgers University - Camden

• Under the bill, Rutgers University – Camden will enter into a 99-year lease agreement for the property and assets located on Rutgers-Camden. The lease agreement will provide for an annual payment of $1 per year to Rutgers University, and include the payment by Rutgers-Camden of any debt service
associated with the facilities and property of Rutgers-Camden. The size of the debt and the debt service have not yet been determined. Rutgers University may need to defease some or all of its outstanding bonds to satisfy bondholders, and Rutgers-Camden may be responsible for some of those costs.

- The cost of maintaining, insuring, and developing the property and assets on Rutgers-Camden is not known.
- The bill requires Rutgers-Camden to utilize the central administrative services and systems provided by Rutgers University, such as information technology systems and the library system, at a proportional amount of reimbursement for its use of the services. This rate has yet to be determined.

Rowan University

- The “public research university” designation bestowed on Rowan University has an indeterminate impact, as there is no State funding formula for the senior public institutions that appropriates additional funds to institutions with this designation.
- There may be transition costs associated with acquiring and integrating the School of Osteopathic Medicine from UMDNJ, such as integrating information technology systems and payroll processing.
- Rowan University may need significant infrastructure improvements, the extent and costs of which are currently unknown, to support the research capabilities of the School of Osteopathic Medicine that would help the School of Osteopathic Medicine maintain accreditation.
- Any debt incurred in the operation and administration of the School of Osteopathic Medicine and debt specifically and directly related to the real and personal property being transferred in Stratford would transfer to Rowan University. The size of this debt and the debt service payments associated with it are not yet available.
- Rowan University may need to obtain sufficient medical malpractice insurance for the physicians and other employees at the School of Osteopathic Medicine, which was previously covered by UMDNJ.
These Senate floor amendments:

• provide that State support for the operations of Rutgers University-Newark must be appropriated by the Legislature directly to Rutgers University-Newark;

• direct the board of governors of Rutgers, The State University to establish an annual certified public reporting process of its finances;

• make changes to the membership of the board of governors of Rutgers, The State University, increasing membership from 11 members to 15 members, including one additional appointment by the Governor, one additional appointment by the Legislature who must be a resident of Essex county, and 2 additional appointments by the board of trustees of the university from among its members, one of whom must be a resident from Essex County and one of whom must be a resident from Middlesex County.

• change the provision in the bill prohibiting the layoff of any employee of UMDNJ, Rutgers, The State University, or Rowan University who was represented by a majority representative on the bill’s effective date to prohibit such layoffs between the bill’s enactment date and July 1, 2014;

• clarify that the properties and assets on the Stratford campus of UMDNJ that are being transferred to Rowan University are limited to those of the School of Osteopathic Medicine, and direct Rowan University and Rutgers, The State University to continue to share those facilities, equipment, and fixtures of the Stratford campus that are shared on the bill’s effective date until such time as the boards of trustees of the two institutions reach an agreement on their shared use;

• provide Rutgers, The State University and Rowan University with a process for the handling of medical malpractice claims incurred at schools of UMDNJ before or after the bill’s effective date;

• change the effective date of the bill to provide that the sections of the bill establishing the governing boards of Rowan University, Rutgers University-Newark, Rutgers University-Camden, the Rowan University-Rutgers Camden Board of Governors, and the University Hospital Community Oversight Board will take effect and become operational on the 90th day after the date of enactment and the remainder of the bill will take effect on July 1, 2013 and first apply to the 2013-2014 academic year;
• require the Treasurer to establish a Transition Committee to advise the Treasurer on matters related to the division, allocation, and assignment of State appropriations, debt issues, allocation of budgets and State personnel, and costs and resources of centralized services involving the various schools;
• provide that the transfers under the bill are considered interdependent and essential and are non-severable. If any transfer is deemed unenforceable or invalid, the remaining transfers will be deemed unenforceable and invalid; and
• provide that Rutgers be held harmless, subject to annual appropriations, for costs or losses experienced in 2014 or 2015 associated with liabilities of UMDNJ that were not identified in UMDNJ’s certified financial statements for periods preceding the cost or loss.
These floor amendments:

- change the governance structure proposed in the bill for Rutgers University-Camden to include a campus board of directors that will have the authority to determine policies for the organization, administration, and development of Rutgers University-Camden, but which are subject to the policies of Rutgers, The State University;
- remove provisions in the bill that would have enabled Rutgers-Camden to set its own tuition and fees, borrow money for its needs, and purchase lands, buildings, equipment, materials, and supplies;
- remove a provision in the bill that would have given the Rowan University-Rutgers Camden Board of Governors authority over all matters concerning the supervision and operations of Rowan University and Rutgers University-Camden;
- provide that the Rowan University-Rutgers Camden Board of Governors will have the authority to approve or disapprove of the establishment or expansion of any schools, programs, or departments after the bill’s effective date in the area of the health sciences;
- direct Rowan University and Rutgers University-Camden to appropriate $2.5 million per year to the Rowan University-Rutgers Camden Board of Governors for administration and other necessary expenses;
- remove a provision in the bill that directed the board of governors of Rutgers University to enter into a 99-year lease with Rutgers University Camden;
- provide for the establishment of a campus advisory board at Rutgers University-Newark and establishing its membership;
- provide that to the maximum extent possible and consistent with State law, the State will assist University Hospital in the refinancing of that portion of the debt of the University of Medicine and Dentistry of New Jersey which is attributable to the hospital;
- provide that all monies previously allocated or otherwise provided to the University of Medicine and Dentistry
of New Jersey for the use of Robert Wood Johnson Medical School, regardless of source, which remain unexpended on the effective date of the bill will be transferred to Rutgers University:

- establish a “School of Biomedical and Health Sciences” within Rutgers University comprised of the schools, institutes, and centers of the University of Medicine and Dentistry of New Jersey that are transferred to Rutgers University and also the Rutgers University School of Nursing, the Ernest Mario School of Pharmacy, the Institute of Health, Health Policy, and Aging Research, and the University Behavioral Healthcare, and all other schools, institutes, and centers as deemed by the president of Rutgers, The State University. The “School of Biomedical and Health Sciences will be led by a chancellor who will be appointed by the board of governors of Rutgers University;

- provide that for a period of five years after the effective date of the bill, any substantive changes that result in the diminution, deterioration or reduction to essential health care services currently provided by University Hospital, will be reviewed by the University Hospital Community Oversight Board and approved by the Department of Health and Senior Services through a licensing review process;

- establish a campus advisory board of Rutgers University-New Brunswick

- direct the president of Rutgers, The State University, in consultation with the campus advisory boards of Newark and New Brunswick, to appoint a chancellor for each campus;

- provide that the chancellor of the School of Biomedical and Health Sciences and the president of Rutgers, or his designee shall be members of the board of directors of University Hospital;

- provide that of the seven Governor’s appointees to the board of governors of Rutgers, The State University, one shall be a resident of Camden County;

- change the provision prohibiting the layoff of employees of UMDNJ, University Hospital, Rutgers, or Rowan as a result of any reorganization, restructuring, transfer, or acquisition that occurs pursuant to the bill to include employees of University Hospital and to clarify that the provision applies to employees employed as of the enactment date;

- provide Rutgers, The State University, Rowan University, and University Hospital with a process for the handling of medical malpractice claims incurred at schools of UMDNJ before or after the bill’s effective date; and

- provide that the transfer of the schools institutes, and centers of the University of Medicine and Dentistry of New Jersey to Rutgers University will require the accreditation approval of the appropriate accrediting bodies prior to transfer.

• Neither the Executive nor the Office of Legislative Services (OLS) has obtained sufficient information to make a comprehensive analysis of the fiscal impact of Senate Bill No. 2063 (2R), the “New Jersey Medical and Health Sciences Education Restructuring Act.” While the Executive and Rutgers University have independently estimated the impact of certain aspects of the bill, the OLS neither concurs nor disagrees with these estimates, since it has no access to the information on which those estimates are based.

• Rutgers University estimates that the bill will necessitate the defeasance of its outstanding bonded indebtedness at a cost of $155 million. The Executive offers no estimate of the
impact of Rutgers University’s refunding of the outstanding bonds because it assumes the bill will not violate any bond covenants. The OLS acknowledges the possibility, but not the certainty, that the bill would require defeasance of the debt, and has no information upon which to base an estimate of such costs. In addition, Rutgers University may be required to refund $494.3 million of outstanding debt transferred from the University of Medicine and Dentistry of New Jersey (UMDNJ). The Executive estimates a net present value savings of approximately $43.6 million, due to lower interest rates, if the debt were refunded. The OLS cannot estimate the potential for restructuring the debt obligations at a lower interest rate, nor any costs or savings that could result.

- University Hospital has $110.0 million in outstanding bond debt and $101.2 million in liabilities from the various units of UMDNJ. The Executive assumes that University Hospital can refund the bonds with bonds backed by the credit of the State and that doing so could result in net present value savings of $8.5 million. The Executive does not consider the $101.2 million as a liability owed by University Hospital to UMDNJ. The OLS neither concurs nor disagrees with these assessments, but notes that University Hospital may need additional State appropriations to maintain its current level of operations and to refund University Hospital debt.

- Rutgers University estimates $20-$40 million for transition costs associated with acquiring and integrating UMDNJ, except for the School of Osteopathic Medicine and University Hospital. Rowan University has not provided an estimate for transition costs associated with acquiring and integrating the School of Osteopathic Medicine. The Executive anticipates one-time expenditures borne by Rutgers University and Rowan University for their respective acquisitions, but does not identify any specific costs. The OLS neither concurs nor disagrees with these assessments, since it has no access to the information on which those assessments are based.

- The Executive makes no analysis about the liabilities arising from claims against University Hospital. The OLS notes that the bill does not include University Hospital in the Self-Insurance Reserve Fund and that University Hospital may be required to obtain its own insurance, the size and costs of which cannot be determined.

**BILL DESCRIPTION**

Senate Bill No. 2063 (2R) of 2012, the “New Jersey Medical and Health Sciences Education Restructuring Act,” implements numerous changes to the State’s public system of higher education. The key provisions of the bill:

- transfer all schools, institutes, and centers of the University of Medicine and Dentistry of New Jersey (UMDNJ), except for the School of Osteopathic Medicine and University Hospital, to Rutgers University, along with the associated debts;
- transfer the School of Osteopathic Medicine of UMDNJ to Rowan University, along with the debts of UMDNJ incurred in the operation and administration of the School of Osteopathic Medicine and related real and personal property;
- designate University Hospital as a separate legal entity from Rutgers University and prohibits its assets, liabilities, and funds from being consolidated or commingled with those of Rutgers University. The hospital’s board of directors is reconstituted and
empowered to enter into a contract with a nonprofit corporation for the management or operation of University Hospital, subject to the approval of the Department of Health and Senior Services;

- designate University Hospital as the principal teaching hospital of New Jersey Medical School and New Jersey Dental School and any other Newark-based medical education program;
- establish the board of trustees at Rutgers University – Camden, which will have authority similar to the board of governors of Rutgers University, such as setting tuition and fees, disbursing funds appropriated, preparing an annual budget, planning for capital projects, and entering into contracts for the construction of such projects;
- authorize Rutgers University – Camden to lease the property and assets located on the campus from Rutgers University for $1 per year. Rutgers University will retain title to the property and assets on the campus, but have no responsibility or control. Rutgers University – Camden will be required to pay any debt service directly related to the facilities and properties located on the campus, with the option to purchase the property from Rutgers University at fair market value at the end of the lease. Rutgers University – Camden will also enter into an agreement for utilizing central administrative services and systems provided by Rutgers University, such as the library system and information technology systems;
- establish the Rowan University – Rutgers Camden Board of Governors that is authorized to: approve or disapprove any decision of the board of trustees of Rowan University or the board of trustees of Rutgers University – Camden; determine policies for the organization, administration, and development of curriculum of Rowan University and Rutgers University – Camden; make joint faculty appointments to either university; determine policies for shared utilization of resources; provide curricular oversight; and develop plans and policies for the operation and governance of health science facilities;
- provide protections for all employees of University Hospital and the institutions of higher education that may be impacted by the bill, with regard to pension rights, health benefits, collective bargaining, and civil service status, as well as the tenure, rank, or academic track of any person holding a faculty position;
- establish Rowan University as a public research university;
- create a Labor Management Committee within 60 days of the bill’s effective date to review all proposed restructuring and reorganization plans and make recommendations to the Board of Governors of Rutgers University regarding personnel and labor relations related to the proposed plans; and
- create the University Hospital Community Oversight Board to ensure that the mission of the hospital and the intent of the “Newark Agreements” are upheld.

The bill has an effective date of July 1, 2013 and provides that the provisions will first apply to the 2013-2014 academic year.

**FISCAL ANALYSIS**

**EXECUTIVE BRANCH**

The Executive does not expect Senate Bill No. 2063 (2R) will impose any substantial impact on the State in FY 2012-2013, and suggests that any fiscal impact to the State will start in FY 2013-2014, when the bill becomes effective on July 1, 2013. The Executive’s analysis
anticipates costs and savings to be significantly less than might be expected for the establishment of a new or separate institution.

The Executive expects the merger of UMDNJ with Rutgers University to produce one-time savings. Combining similar functions and services should result in administrative overhead savings, though the specific amount of savings is unidentified. The Executive notes that a 5 percent level of annual operating savings would equal $4.3 million. The institutions’ current Federal Indirect Cost Recovery Rate for on-site research is 58 percent for UMDNJ and 55 percent for Rutgers. The Executive notes that if the post-merger rate becomes 58 percent, that would result in additional funds that would help overcome one-time merger expenses.

The Executive states that one-time expenses will arise from the restructuring, in the areas of human resources administration, information technology, accreditation, and other areas. However, no specific costs are identified and the Executive states that the universities, not the State, will bear these expenses. The Executive notes that these expenses will not be borne by the State, but instead be absorbed by the universities over several fiscal years. It further observes that the bill’s impacts will not, by themselves, trigger a significant change in the level of State aid to higher education.

The Executive believes that the transfer of debt to Rutgers University from UMDNJ and the subsequent refunding of that debt by Rutgers University would produce an estimated net present value savings1 of $43.6 million due to low interest rates. The Executive expects Rutgers University to retain its current bond rating after the assumption of UMDNJ debt.

The Executive believes that the transfer of debt to Rowan University from the School of Osteopathic Medicine at UMDNJ and the subsequent refunding of that debt by Rowan University would produce an estimated net present value savings of $3.6 million. The Executive also expects Rowan University to retain its current bond rating after the assumption of School of Osteopathic Medicine debt. The Executive suggests, but does not conclude, that if Rowan University would be compelled to refund its debt immediately, because its current bond rating is higher than that of UMDNJ, a savings could result.

The Executive also believes that University Hospital can refund $110.0 million in outstanding debt to produce an estimated net present value savings of $8.5 million. The Executive assumes that the bonds could be refunded by bonds backed by the credit of the State, an action that is neither permitted nor prohibited by the bill.

OFFICE OF LEGISLATIVE SERVICES

The OLS cannot estimate the fiscal impact of Senate Bill No. 2063 (2R). The OLS notes that the costs and savings will be borne primarily by the institutions impacted by the legislation, Rutgers University, Rowan University, and University Hospital. The impact, if any, on State resources, is conjectural.

Debt Considerations

Without access to analysis conducted by bond counsel, financial advisors, and other experts retained by Rutgers University and Rowan University, the OLS does not have the necessary information to make an accurate and complete assessment of the outstanding debt obligations,

---

1 It should be noted that a net present value savings of $40 million is not the same as a budget savings of $40 million in a given fiscal year.
and of the bill’s impact on transferring those obligations and subsequent events necessitated by their transfer.

Rutgers University is assuming the debt obligations of UMDNJ, except for the School of Osteopathic Medicine and University Hospital. According to UMDNJ, these debt obligations equal $494.3 million, which Rutgers University would need to refinance. The OLS cannot estimate the cost of restructuring these debt obligations, including any issuance costs and early repayment. Without further information that is currently unavailable, the OLS cannot estimate the potential for restructuring the debt obligations at a lower interest rate, nor any savings that could result.

Rowan University is assuming the debt obligations of the School of Osteopathic Medicine. According to UMDNJ, these debt obligations total $58.2 million, with debt service payments of almost $2.0 million. The OLS cannot determine if the entire debt obligation of $58.2 million transfers to Rowan University or some portion will become part of Rutgers University. Additionally, the OLS is unable to determine whether Rowan University will be required to restructure its debt upon assuming any debt associated with the School of Osteopathic Medicine.

According to UMDNJ, University Hospital has $110.0 million in outstanding bond debt, with debt service costs of $6.7 million. University Hospital may not be able to support such debt and may thus require additional State support. In addition, the Executive assumes that the refunding of University Hospital debt can be achieved through bonds backed by the credit of the State. While this is neither permitted nor prohibited under the bill, the OLS notes that such an action may have implications for the State’s credit rating and borrowing costs.

University Hospital also has $101.2 million in liabilities that represent the amount of funds the hospital borrowed from other institutions of UMDNJ, such as the New Jersey Medical School, to cover the cash flow of its operations. Because the bill prohibits University Hospital assets, liabilities, and funds from being consolidated or commingled with those of Rutgers University, it is unclear where the ultimate responsibility for this portion of the hospital’s liabilities lies. The State, given its history of supporting University Hospital operations, may need to repay all or a portion of the $101.2 million through additional State appropriations.

Rutgers University currently has an estimated $950 million in bond debt obligations, with some portion associated with Rutgers University – Camden. Rutgers University will lease the property and assets to Rutgers University – Camden for $1 per year, and the lease agreement also provides that Rutgers University – Camden will pay Rutgers University any debt service associated with the campus. According to Rutgers University, transferring control of the property and assets would require defeasance of their bonds. Rutgers University estimates the cost of defeasing all of its bonds at $155 million, which includes repaying bondholders, early repayment penalties, transaction costs, and fees to underwriters, financial advisors, and attorneys. Without access to further information and analyses, the OLS cannot conclude whether the transfer of the property and assets of the campus requires defeasance of the bonds nor can it estimate how this action would affect either Rutgers University or Rutgers University – Camden.

Additionally, Moody’s estimates that Rutgers University has “about $64 million in debt outstanding related to its Camden facilities and has another roughly $60 million that it has internally financed and expects to be reimbursed from the proceeds of a bond issue in early 2013.” The OLS cannot verify the debts associated with Rutgers University – Camden.

**Bond Rating**

The Executive expects Rutgers University and Rowan University to retain their long-term ratings after the reorganization, which might reduce the cost of the UMDNJ debt those
institutions are assuming. However, Moody’s Investment Services has noted that the reorganization plan may likely have direct implications for both institutions. Currently, Moody’s rates UMDNJ’s bonds “Baa1,” with a “negative” outlook. Rutgers University has a higher bond rating of “Aa2” and a “stable” outlook. With Rutgers University assuming the debt obligations of UMDNJ under the bill, this could have an impact on the credit rating of Rutgers University that may affect future borrowing costs. In addition, the impact on Rutgers University’s bond rating is unclear when Rutgers University – Camden becomes responsible for some amount of Rutgers University’s current debts and is able to issue its own debt, and if it were to receive a separate line-item in the annual State appropriations act. Rutgers University notes that this loss of control over the use of appropriations to its campus would mean less financial flexibility and lower revenues to support debt service payments for the entire university.

On June 1, 2012, Moody’s revised Rowan University’s outlook from stable to negative, to reflect the institution’s “high leverage relative to its balance sheet and operations, and the pressure that Rowan University has to continue to generate revenue and operating cash flow to provide adequate debt service coverage consistent with its rating level.” The OLS notes that the ability of Rowan University to absorb debt attributable to the School of Osteopathic Medicine may impact the university’s bond rating and borrowing costs.

**Operational Expenditures**

**Rutgers University/UMDNJ**

The Executive assumes the post-reorganization Rutgers University may have a 58 percent Federal Indirect Cost Recovery Rate, instead of the current 55 percent, for on-site research to offset some of the costs of the reorganization. UMDNJ notes that while it is reasonable for Rutgers University to seek a higher rate in the next proposal, any rate revisions would require discussion and negotiation with the federal Department of Health and Human Services. It is not clear whether Rutgers University will secure a higher reimbursement rate for all research grants, or whether only those grants that relate to former components of UMDNJ will secure the higher rate. The OLS cannot determine whether the Federal Indirect Cost Recoveries will help overcome one-time merger expenses, discussed below, and provide additional long-term resources for the post-reorganization Rutgers University.

**University Hospital**

The OLS notes that given University Hospital’s history, additional State support may be necessary to maintain operations. University Hospital has incurred operating losses in the past several years, ranging as high as $57.1 million in FY 2007-2008 to a low of $2.5 million in FY 2010-2011. As a result, in FY 2009-2010, the State appropriated $30.9 million for “UMDNJ – Stabilization” to support University Hospital operations. Due to the operating losses and University Hospital’s potential inability to continue operations without supplemental funds, the State may need to appropriate indeterminate additional funds to maintain University Hospital operations.

Under the bill, University Hospital is allowed to enter into an agreement with a non-profit corporation to operate and manage or assist in the operation and management of University

2 According to Moody’s, a “negative” outlook indicates the possibility of a downgrade.
Hospital, without a competitive bidding process. The scope of the agreement has yet to be determined and therefore, the impact of the agreement is indeterminate.

Rutgers University – Camden

Under the bill, Rutgers University will continue to hold title to the property and assets located on Rutgers University – Camden but will relinquish responsibility and control over their maintenance, insurance, and development. The OLS notes that the funds Rutgers University – Camden will need to expend to maintain, insure, and develop the property and assets on the campus for the duration of the 99-year lease, are indeterminate.

Rutgers University – Camden will be required to utilize the central administrative services and systems provided by Rutgers University, such as information technology systems and the library system, at a negotiated rate of reimbursement. Currently, these services and systems are shared without an allocation of cost or usage per campus. The rate of reimbursement has yet to be determined.

Rowan University

The bill provides that Rowan University would be designated a “public research university,” making it only one of three public institutions of higher education in the State to have that status. This change in designation has an indeterminate fiscal impact because there is no State funding formula for the senior public institutions that appropriates additional funds to institutions with “public research university” status.

Rowan University may need significant infrastructure improvements, the extent and costs of which are currently indeterminate, to maintain the accreditation of the School of Osteopathic Medicine. The American Osteopathic Association (AOA) raised concerns about Rowan University not having the infrastructure and systems in place, as UMDNJ already does, to train primary care physicians and deliver medical care to citizens of the State. Additionally, the AOA is concerned that Rowan University has inadequate or non-existent research facilities that is needed to support the nationally and internationally recognized research programs at the School of Osteopathic Medicine. The AOA indicated that these concerns may jeopardize the School of Osteopathic Medicine’s accreditation from the AOA Commission on Osteopathic College Accreditation.

Transition Savings/Expenses

Rutgers University indicates that the transition costs associated with acquiring and integrating the University of Medicine and Dentistry of New Jersey (UMDNJ), except for the School of Osteopathic Medicine and University Hospital, range from $20 million to $40 million. These costs may include, but are not limited to: hiring an outside transition team to facilitate the process; combining payroll and other human resource functions; integrating computer and information technology functions; identifying and reducing personnel redundancies; and ensuring Health Insurance Portability and Accountability Act (HIPAA) compliance. The OLS acknowledges the likelihood of these transition costs, but cannot confirm Rutgers University’s estimates.

The transition costs to Rowan University of acquiring and integrating the School of Osteopathic Medicine from UMDNJ are undetermined. The costs may include, but are not limited to: hiring an outside transition team to facilitate the process; combining payroll and other
human resource functions; integrating computer systems and information technology functions; identifying and combining personnel staffing; and ensuring HIPAA compliance.

**Self-Insurance Reserve Fund**

The OLS cannot estimate the cost that University Hospital will incur to obtain insurance to cover claims. Currently, UMDNJ participates in the Self-Insurance Reserve Fund, which it maintains with the Department of the Treasury to pay claims related to professional and comprehensive general liability, directors’ and officers’ liability, auto liability, and insurance premiums. UMDNJ also purchases commercial excess liability insurance coverage. Monies in the Self-Insurance Reserve Fund, existing commercial excess liability insurance coverage, and coverage provided by the State’s Tort Claims Act are used to meet the cost of claims against UMDNJ, which currently totals $138.4 million. The State has ultimate liability for any claims in excess of the fund’s assets. Under the bill, Rowan University will participate in the Self-Insurance Reserve Fund, thereby ensuring coverage for the School of Osteopathic Medicine. However, University Hospital will not be participating and may be required to obtain its own insurance for claims against its employees and the hospital. The size and cost of obtaining sufficient insurance are indeterminate. Furthermore, for reasons stated earlier, the State may be required to increase or supplement State appropriations to support these University Hospital expenses in order to maintain hospital operations.

The OLS concludes by noting the possibility, given the complexities of the bill and the entities to which it applies, and given the absence of significant information from which to assess the bill’s fiscal impact, that the bill could cause significant unanticipated costs to each or all of the respective institutions of higher education and University Hospital. Should this occur and should such costs be significant in relation to the financial resources under the direct control of the entity, then the entity’s dependence upon State financial support for continued operations would also increase by the extent to which its own resources were insufficient.

Bipartisan Higher Education Achievements Create Three Centers of Excellence, Strengthen State’s Economic Future and Competitiveness and Move Forward $750 Million Capital Investment

Trenton, NJ – Continuing his strong record of bipartisan cooperation and compromise to put results before politics, Governor Chris Christie today signed the bipartisan ‘New Jersey Medical and Health Sciences Education Restructuring Act’ into law, achieving a long-sought, dramatic overhaul and strengthening of the state’s higher education system that had eluded leaders in the state for more than a decade. This significant accomplishment represents the latest action of Governor Christie’s commitment to improving New Jersey’s system of higher education, including his signing of a $750 million bond referendum for capital improvements – the first in 24 years – the enactment of multiple pieces of legislation to support public-private partnerships for infrastructure improvements and investments at colleges and universities, an overall state aid increase of $65 million to colleges and universities this year, and $28 million in additional student financial assistance this year.

“This is a transformative and historic day for higher education in New Jersey. After decades of politics getting in the way of a desperately needed rethinking and restructuring of our higher education system, we have again come together in a bipartisan way to put our state’s students, our long-term economic viability and our future generations first,” said Governor Christie. “Along with our commitment to support a bond referendum to invest three-quarters of a billion dollars in capital improvements, we are undertaking the broadest, boldest, and most important restructuring of New Jersey’s higher education landscape in decades.”

This significant and sweeping restructuring legislation, A-3102, will promote long-term, sustainable economic growth and high academic achievement by fostering three hubs of higher education excellence in the northern, central, and southern parts of the state. The reform, effective July 1, 2013, transfers all schools, institutes and centers of the University of Medicine and Dentistry of New Jersey (UMDNJ), other than the School of Osteopathic Medicine and University Hospital, to Rutgers, while establishing Rowan University as a public research university. Rutgers University will become a Top-25 research institute based on the combined outside funding sources of the merged universities, a reality that will attract more top faculty and students, creating a cycle of excellence that will propel Rutgers to sustained excellence.

“Today, we give Rutgers University the medical school and research potential it needs to earn a place among the finest academic institutions in the world. We also establish a framework that will support rapid growth in the southern part of the state and, critically for our most-vulnerable residents, we protect medical facilities that provide lifesaving care and services to thousands of people in the northern part of New Jersey,” added Governor Christie. “By establishing Rowan University as a research institution, we help Rowan continue its rapid climb and capitalize on the opportunity to grow this hub of higher education in South Jersey and give students in every part of our state the chance to obtain a world-class education near home.”

Secretary of Higher Education Rochelle Hendricks said the Act creates unprecedented opportunities for newly restructured institutions to dramatically enhance educational programs and increased federal, private and philanthropic research dollars.

“Today, the Governor fulfills his promise to make higher education in New Jersey a priority after decades of neglect,” said Secretary Hendricks. “The changes enacted by this legislation will help the state attract and retain exceptional talent. The creation of regional centers of excellence will aid New Jersey’s comeback by making it easier for our higher education institutions to create innovative partnerships with New Jersey’s worldwide leaders in pharmaceutical research. Today’s restructuring will help New Jersey win its fair share of research funding that has, for decades, been going to other states.”

The restructuring transfers the School of Osteopathic Medicine in Stratford from UMDNJ to Rowan. In Newark, University Hospital becomes an independent entity while maintaining its affiliation with the medical school and other programs that are now part of Rutgers. In Camden, the Cooper Medical School of Rowan University already has welcomed the arrival of its first class of students for the fall semester.

“A highly trained, capable workforce is essential to New Jersey’s future, because it is the most important element in attracting new businesses to our state,” said Senate President Steve Sweeney. “That is what made this legislation so
critical. Not only will it dramatically increase the standing of our institutions of higher learning, but it will, in the long term, create a thriving business climate for New Jersey. It is a win-win for everyone."

"This law will provide for the future growth and development of Rutgers-Newark and the expansion of graduate medical education in Newark, creating a focal point that will serve residents from throughout the state," said Speaker Sheila Oliver. "The reorganization will position New Jersey to develop economic opportunity and jobs in the health professions - the fastest growing sector of our nation's economy - to the benefit of not just Newark and surrounding counties but the state as a whole. This is a good thing for everyone. This was always about creating a better and stronger New Jersey and building a better future, and in the end the bill sent to the Governor was written in a way to ensure that indeed is the case. I look forward to seeing the progress it brings in the coming years."

"This restructuring will create a world-class network of institutions in the area of life sciences that will spur research and development, create new jobs and fuel economic growth," said Senator Donald Norcross. "In South Jersey, it will improve access to college for our students and help meet the educational demands of a rapidly-growing region. Most importantly, it will fulfill a promise I made to keep Rutgers in South Jersey, a brand which is a symbol of pride for current and former students and faculty as well as the community. And it will correct long-standing regional funding disparities by bringing substantially more education-related funds into our region at the same time it creates new funding opportunities statewide."

"This restructuring will create a 'perfect match' between the medical and academic institutions in New Jersey," said Senator Joseph Vitale. "We have some of the best hospitals, medical schools and universities in the country and now they will be empowered to capitalize on their abilities to pursue research, to train new generations of doctors and to put New Jersey on the cutting edge of life sciences. This is good for education, for medical care and for economic progress."

The New Jersey Medical and Health Sciences Education Restructuring Act is the third significant higher education bill signed by the Governor this month. On August 8, Governor Christie signed legislation to allow a $750 million higher education bond referendum to appear on the ballot in November. If voters approve, the initiative would provide the first higher education general obligation bond issue for capital improvements since 1988. The Governor also signed a bill that will make it easier for public colleges and universities in the State to enter into public-private partnerships for construction on campus, enabling the deployment of investment dollars by giving public colleges and universities a new tool at their disposal.

Primary sponsors of A-3102/S-2063 were Assemblymembers Thomas Giblin (D-Essex, Passaic), Vincent Prieto (D-Bergen, Hudson), Celeste Riley (D-Cumberland, Gloucester, Salem), and John Wisniewski (D-Middlesex), and Senators Stephen M. Sweeney (D-Cumberland, Gloucester, Salem), Donald Norcross (D-Camden, Gloucester), and Joseph F. Vitale (D-Middlesex).
