27 of such further contract by such municipality or person may be
28 used and applied by the commissioners to the cost of the comple-
29 tion of the intercepting sewer and appurtenances, or to the pay-
30 ment of the cost of the operation and maintenance of the same, or
31 to the reduction of the amount which any contracting municipality
32 may be called upon to pay to the commissioners by virtue of its
33 said contract, as may be agreed upon in any such contract.

1 2. This act shall take effect immediately.

STATEMENT

This bill is permissive in character and would permit the borough of North Haledon located in Passaic county to enter into a lease agreement with the Passaic Valley Sewerage Commissioners to receive sewerage effluent. At the present time municipalities located within the drainage area of the Passaic river between the Great falls of Paterson and Newark bay, together with Totowa and West Paterson, are permitted to enter into such leases. This bill would merely extend the area to include North Haledon.
