This bill would establish several apprentice licenses for firearm and bow and arrow hunting. Under current law, hunting licenses are issued in several forms (including a resident's firearm hunting license, resident's bow and arrow license, resident's two-day small game firearm hunting license, nonresident's firearm hunting license, nonresident's bow and arrow license, and nonresident's two-day small game firearm hunting license), each of which requires an applicant who has not previously held a license to first complete a course in gun or bow and arrow safety, as the case may be. This bill would establish, for each of these regular licenses, a corresponding apprentice license for which an applicant would not be required to complete a safety course. The apprentice licenses, however, would only authorize a licensee to hunt when accompanied by a person above 21 years of age who holds a regular license for firearm or bow and arrow hunting, as appropriate. In addition, this bill would limit the number of times a person may be issued a given type of apprentice license to only twice in the lifetime of the person.

S573 B.SMITH, SWEENEY

C

1 The bill would also authorize the issuance of an apprentice youth 2 firearm hunting license and an apprentice youth bow and arrow 3 license to minors above 10 years and under 16 years of age, at the 4 discretion of the Division of Fish and Wildlife in the Department of 5 Environmental Protection. The division is currently authorized to 6 issue regular youth hunting licenses to minors above 10 years and 7 under 16 years of age, provided they first complete a safety course. 8 Furthermore, the regular youth hunting license requires those 9 licensees above 10 years and under 14 years of age to be 10 accompanied by an individual above the age of 21 who holds an adult hunting license. However, this requirement does not apply to 11 12 licensees of age 14 or 15.

By contrast, the apprentice youth firearm hunting license and the apprentice youth bow and arrow license established under this bill would not require an applicant to first take a safety course, but would require all such licensees, regardless of age, to be accompanied by an individual above the age of 21 who holds a regular adult hunting license. The licenses would expire on December 31 of the year of issue and each applicant would be limited to only two apprentice youth firearm hunting licenses and two apprentice youth bow and arrow licenses during his or her period of eligibility.

SENATE ENVIRONMENT AND ENERGY COMMITTEE

STATEMENT TO

SENATE COMMITTEE SUBSTITUTE FOR SENATE, No. 573

STATE OF NEW JERSEY

DATED: JANUARY 12, 2015

The Senate Environment and Energy Committee favorably reports a committee substitute for Senate Bill No. 573.

This committee substitute would establish apprentice licenses for firearm and bow and arrow hunting. Under current law, hunting licenses are issued in several forms (including a resident's firearm hunting license, resident's bow and arrow license, nonresident's firearm hunting license, and nonresident's bow and arrow license), each of which requires an applicant who has not previously held a license to first complete a course in gun or bow and arrow safety, as the case may be. This bill would allow, for each of these regular licenses, for any person above 14 years of age, a corresponding apprentice license for which an applicant would not be required to complete a safety course. The apprentice licenses, however, would only authorize a licensee to hunt when accompanied by a person above 21 years of age who holds a regular license for firearm or bow and arrow hunting, as appropriate. In addition, this bill would limit the number of times a person may be issued a given type of apprentice license to only twice in the lifetime of the person.

The division is currently authorized to issue regular youth hunting licenses to minors above 10 years and under 16 years of age, provided they first complete a safety course. Furthermore, the regular youth hunting license requires those licensees above 10 years and under 14 years of age to be accompanied by an individual above the age of 21 who holds an adult hunting license. However, this requirement does not apply to licensees of age 14 or 15.

By contrast, the apprentice firearm hunting license and the apprentice bow and arrow license established under this bill would not require an applicant to first take a safety course, but would require all such licensees, regardless of age, to be accompanied by an individual above the age of 21 who holds a regular adult hunting license. The licenses would expire on December 31 of the year of issue and each applicant would be limited to only two apprentice firearm hunting licenses and two apprentice bow and arrow licenses during his or her period of eligibility.

The committee substitute would also amend current law to clarify that a person under 16 years of age who holds an apprentice bow and arrow license and is under the supervision of the holder of an adult bow and arrow license is not subject to the prohibition of pointing or shooting metal tipped arrows, and that a person who furnishes a pointed or metal tipped arrow to a person under 16 years of age who holds an apprentice bow and arrow license does not commit a disorderly persons offense.

SENATE BUDGET AND APPROPRIATIONS COMMITTEE

STATEMENT TO

SENATE COMMITTEE SUBSTITUTE FOR SENATE, No. 573

STATE OF NEW JERSEY

DATED: MARCH 9, 2015

The Senate Budget and Appropriations Committee reports favorably Senate Bill No. 573 (SCS).

This bill would establish apprentice licenses for firearm and bow and arrow hunting. Under current law, hunting licenses are issued by the Division of Fish and Wildlife in the Department of Environmental Protection in several forms (including a resident's firearm hunting license, resident's bow and arrow license, nonresident's firearm hunting license, and nonresident's bow and arrow license), each of which requires an applicant who has not previously held a license to first complete a course in gun or bow and arrow safety, as the case may be. This bill would allow, for each of these regular licenses, for any person above 14 years of age, a corresponding apprentice license for which an applicant would not be required to complete a safety course. The apprentice licenses, however, would only authorize a licensee to hunt when accompanied by a person above 21 years of age who holds a regular license for firearm or bow and arrow hunting, as appropriate. In addition, this bill would limit the number of times a person may be issued a given type of apprentice license to only twice in the lifetime of the person.

The division is currently authorized to issue regular youth hunting licenses to minors above 10 years and under 16 years of age, provided they first complete a safety course. Furthermore, the regular youth hunting license requires those licensees above 10 years and under 14 years of age to be accompanied by an individual above the age of 21 who holds an adult hunting license. However, this requirement does not apply to licensees of age 14 or 15.

By contrast, the apprentice firearm hunting license and the apprentice bow and arrow license established under this bill would not require an applicant to first take a safety course, but would require all such licensees, regardless of age, to be accompanied by an individual above the age of 21 who holds a regular adult hunting license. The licenses would expire on December 31 of the year of issue and each applicant would be limited to only two apprentice firearm hunting licenses and two apprentice bow and arrow licenses during his or her period of eligibility.

Finally, the bill would also amend current law to clarify that a person under 16 years of age who holds an apprentice bow and arrow license and is under the supervision of the holder of an adult bow and arrow license is not subject to the prohibition of pointing or shooting metal tipped arrows, and that a person who furnishes a pointed or metal tipped arrow to a person under 16 years of age who holds an apprentice bow and arrow license does not commit a disorderly persons offense.

FISCAL IMPACT:

According to information provided by the DEP, no additional expenses are expected to be incurred by the department to implement and administer the provisions of the bill. However, the OLS estimates that there would be an indeterminate increase in State revenue from license fees received from applicants for apprentice firearm hunting licenses and apprentice bow and arrow licenses. The amount of revenue received would depend on the number of apprentice licenses issued by the Division of Fish and Wildlife.

This bill would allow the division to issue new resident and nonresident apprentice hunting licenses to applicants, and would limit the number of licenses issued to only twice in the lifetime of an applicant. The licenses would expire on the last day of the year of issue. The OLS notes that fees for the apprentice hunting licenses are identical to the fees charged for the regular hunting licenses issued by the division.

BILL DESCRIPTION

The Senate Committee Substitute for Senate Bill No. 573 of 2014 would establish apprentice licenses for firearm and bow and arrow hunting. Under current law, hunting licenses are issued in several forms (including a resident's firearm hunting license, resident's bow and arrow license, nonresident's firearm hunting license, and nonresident's bow and arrow license), each of which requires an applicant who has not previously held a license to first complete a course in gun or bow and arrow safety. The division is currently authorized to issue regular youth hunting licenses to minors above 10 years and under 16 years of age, provided they first complete a safety course. Furthermore, the regular youth hunting license requires those licensees above 10 years and under 14 years of age to be accompanied by an individual above the age of 21 who holds an adult hunting license. However, this requirement does not apply to licensees of age 14 or 15.

By contrast, the apprentice firearm hunting license and the apprentice bow and arrow license established under this bill would not require an applicant to first take a safety course, but would require all such licensees, regardless of age, to be accompanied by an individual above the age of 21 who holds a regular adult hunting license. The licenses would expire on December 31 of the year of issue and each applicant would be limited to only two apprentice firearm hunting licenses and two apprentice bow and arrow licenses during his or her period of eligibility.

As reported by the committee, the bill is identical to Assembly Bill No. 2443, as substituted and also reported by the committee.

This bill would establish several apprentice licenses for firearm and bow and arrow hunting. Under current law, hunting licenses are issued in several forms, including a resident's firearm hunting license, resident's bow and arrow license, resident's two-day small game firearm hunting license, nonresident's firearm hunting license, nonresident's bow and arrow license, and nonresident's two-day small game firearm hunting license. Each of these licenses requires an applicant who has not previously held a license to first complete a course in gun or bow and arrow safety, as the case may be. This bill would establish, for each of these regular licenses, a corresponding apprentice license for which an applicant would not be required to complete a safety course. The apprentice licenses, however, would only authorize a licensee to hunt when accompanied by a person above 21 years of age who holds a regular license for firearm or bow and arrow hunting, as the case may be. In addition, this bill would limit the number of times a person may be issued a given type of apprentice license to only twice in the lifetime of the person.

The bill would also authorize the issuance of an apprentice youth firearm hunting license and an apprentice youth bow and arrow license to minors above 10 years and under 16 years of age, at the discretion of the Division of Fish and Wildlife in the Department of Environmental Protection. The division is currently authorized to

Q

issue regular youth hunting licenses to minors above 10 years and under 16 years of age, provided they first complete a safety course. Furthermore, the regular youth hunting license requires those licensees above 10 years and under 14 years of age to be accompanied by an individual above the age of 21 who holds an adult hunting license. However, this requirement does not apply to

7

licensees of age 14 or 15.

8 By contrast, the apprentice youth firearm hunting license and the 9 apprentice youth bow and arrow license established under this bill 10 would not require an applicant to first take a safety course, but 11 would require all licensees, regardless of age, to be accompanied by 12 an individual above the age of 21 who holds a regular adult hunting 13 license. The licenses would expire on December 31 of the year of 14 issue and each applicant would be limited to only two apprentice 15 youth firearm hunting licenses and two apprentice youth bow and 16 arrow licenses during his or her period of eligibility.

ASSEMBLY BUDGET COMMITTEE

STATEMENT TO

ASSEMBLY COMMITTEE SUBSTITUTE FOR ASSEMBLY, No. 2443

STATE OF NEW JERSEY

DATED: JUNE 23, 2015

The Assembly Budget Committee reports favorably, an Assembly Committee Substitute for Bill No. 2443.

This committee substitute establishes apprentice licenses for firearm and bow and arrow hunting.

Under current law, hunting licenses are issued by the Division of Fish and Wildlife in the Department of Environmental Protection in several forms (including a resident's firearm hunting license, resident's bow and arrow license, nonresident's firearm hunting license, and nonresident's bow and arrow license), each of which requires an applicant who has not previously held a license to first complete a course in gun or bow and arrow safety, as the case may be.

This committee substitute allows, for each of these regular licenses, for any person above 14 years of age, a corresponding apprentice license for which an applicant would not be required to complete a safety course. The apprentice licenses, however, would only authorize a licensee to hunt when accompanied by a person above 21 years of age who holds a regular license for firearm or bow and arrow hunting, as appropriate. In addition, this substitute would limit the number of times a person may be issued a given type of apprentice license to twice in a lifetime.

The division is currently authorized to issue regular youth hunting licenses to minors above 10 years and under 16 years of age, provided they first complete a safety course. Furthermore, the regular youth hunting license requires those licensees above 10 years and under 14 years of age to be accompanied by an individual above the age of 21 who holds an adult hunting license. However, this requirement does not apply to licensees of age 14 or 15.

By contrast, the apprentice firearm hunting license and the apprentice bow and arrow license established under this substitute would not require an applicant to first take a safety course, but would require all such licensees, regardless of age, to be accompanied by an individual above the age of 21 who holds a regular adult hunting license. The licenses would expire on December 31 of the year of issue.

The committee substitute would also amend current law to clarify that a person under 16 years of age who holds an apprentice bow and arrow license and is under the supervision of the holder of an adult bow and arrow license is not subject to the prohibition of pointing or shooting metal tipped arrows, and that a person who furnishes a pointed or metal tipped arrow to a person under 16 years of age who holds an apprentice bow and arrow license does not commit a disorderly persons offense.

As reported and substituted by the committee, the committee substitute is identical to Senate Bill No. 573 (SCS), as also reported by the committee.

FISCAL IMPACT:

According to information provided by the DEP, no additional expenses are expected to be incurred by the department to implement and administer the provisions of the substitute. However, the OLS estimates that there would be an indeterminate increase in State revenue from license fees received from applicants for apprentice firearm hunting licenses and apprentice bow and arrow licenses. The amount of revenue received would depend on the number of apprentice licenses issued by the Division of Fish and Wildlife.

This committee substitute would allow the division to issue new resident and nonresident apprentice hunting licenses to applicants, and would limit the number of licenses issued to only twice in the lifetime of an applicant. The licenses would expire on the last day of the year of issue. The OLS notes that fees for the apprentice hunting licenses are identical to the fees charged for the regular hunting licenses issued by the division.

BILL DESCRIPTION

The Assembly Committee Substitute for Assembly Bill No. 2443 of 2014 would establish apprentice licenses for firearm and bow and arrow hunting. Under current law, hunting licenses are issued in several forms (including a resident's firearm hunting license, resident's bow and arrow license, nonresident's firearm hunting license, and nonresident's bow and arrow license), each of which requires an applicant who has not previously held a license to first complete a course in gun or bow and arrow safety. This bill would allow, for each of these regular licenses, for any person above 14 years of age, a corresponding apprentice license for which an applicant would not be required to complete a safety course. The apprentice licenses, however, would only authorize a licensee to hunt when accompanied by a person above 21 years of age who holds a regular license for firearm or bow and arrow hunting, as appropriate. In addition, this bill would limit the number of times a person may be issued a given type of apprentice license to only twice in the lifetime of the person.

The division is currently authorized to issue regular youth hunting licenses to minors above 10 years and under 16 years of age, provided they first complete a safety course. Furthermore, the regular youth hunting license requires those licensees above 10 years and under 14 years of age to be accompanied by an individual above the age of 21 who holds an adult hunting license. However, this requirement does not apply to licensees of age 14 or 15.

By contrast, the apprentice firearm hunting license and the apprentice bow and arrow license established under this bill would not require an applicant to first take a safety course, but would require all such licensees, regardless of age, to be accompanied by an individual above the age of 21 who holds a regular adult hunting license. The licenses would expire on December 31 of the year of issue and each applicant would be limited to only two apprentice firearm hunting licenses and two apprentice bow and arrow licenses during his or her period of eligibility.
