8 1. a. Notwithstanding the provisions of the comprehensive
9 management plan or any rule or regulation to the contrary, a
10 recreational use that meets the conditions set forth in this section
11 shall be allowed as a low intensity recreational use on lands subject
12 to a Pinelands development credit deed restriction and located
13 within an agricultural production area:

14 (1) the recreational use involves only minimal or temporary
15 damage to the agricultural or horticultural use of the lands;

17 permanent structures on any lands in agricultural or horticultural
18 use; and

19 (3) the recreational use is of a temporary nature.

20 b. A landowner engaging in, or allowing, a recreational use

23 allowable recreational uses on the lands.

27

28 STATEMENT
29

30 This bill provides that a recreational use meeting the conditions
31 set forth in the bill would be allowed as a low intensity recreational
32 use on lands that are subject to a Pinelands development credit deed
33 restriction and located within an agricultural production area in the
34 pinelands area. For a recreational use to qualify under the bill, the
35 recreational use must: (1) involve only minimal or temporary
36 damage to the agricultural or horticultural use of the lands; (2) not
37 include the development of any permanent structures on any lands
38 in agricultural or horticultural use; and (3) be of a temporary nature.

39 Currently, the Pinelands comprehensive management plan, at
40 N.J.A.C.7:50-2.11, defines the term “recreational facility, low
41 intensive” to mean “a facility or area which complies with the
42 standards in N.J.A.C.7:50-5, Part III, utilizes and depends on the
43 natural environment of the Pinelands and requires no significant
44 modifications of that environment other than to provide access, and
45 which has an insignificant impact on surrounding uses or on the
46 environmental integrity of the area. It permits such low intensity
47 uses as hiking, hunting, trapping, fishing, canoeing, nature study,
48 orienteering, horseback riding, and bicycling.”

1 In addition, the Pinelands comprehensive management plan, at
2 N.J.A.C.7:50-5.24, sets forth minimum standards governing the
3 distribution and intensity of development and land use in
4 agricultural production areas. Agricultural production areas are
5 areas of active agricultural use, generally upland field agriculture
6 and row crops, including adjacent areas with soils suitable for
7 expansion of agricultural operations. Certain residential and non-
8 residential uses are allowed in these areas subject to specific
9 conditions set forth in the comprehensive management plan. In
10 addition, low intensity recreational uses and the expansion of
11 certain pre-existing intensive recreational uses may occur subject to
12 certain conditions.

13 This bill would expand what qualifies as a low intensity
14 recreational use, and would allow certain recreational activities,
15 such as youth soccer, to qualify as a low intensity recreational use
16 within an agricultural production area. In addition, the bill provides
17 that a landowner engaging in, or allowing, a recreational use
18 meeting the criteria set forth in the bill would not be in violation of
19 any deed restriction related to allowable recreational uses on the
20 lands.

ASSEMBLY AGRICULTURE AND NATURAL RESOURCES
COMMITTEE

STATEMENT TO
ASSEMBLY, No. 3257

with committee amendments

STATE OF NEW JERSEY

DATED: JUNE 12, 2014

The Assembly Agriculture and Natural Resources Committee reports favorably, and with committee amendments, Assembly Bill No. 3257.

This bill, as amended, provides that a recreational use meeting the conditions set forth in the bill would be allowed as a low intensity recreational use on lands that are subject to a Pinelands development credit deed restriction and located within an agricultural production area in the pinelands area. For a recreational use to qualify under the bill, the recreational use must: (1) involve only minimal or temporary damage to the agricultural or horticultural use of the lands; (2) not include the development of any permanent structures on any lands in agricultural or horticultural use; and (3) be of a temporary nature. The bill, as amended, does not apply to any deed restriction imposed pursuant to any other farmland preservation programs.

Currently, the Pinelands comprehensive management plan, at N.J.A.C.7:50-2.11, defines the term “recreational facility, low intensive” to mean “a facility or area which complies with the standards in N.J.A.C.7:50-5, Part III, utilizes and depends on the natural environment of the Pinelands and requires no significant modifications of that environment other than to provide access, and which has an insignificant impact on surrounding uses or on the environmental integrity of the area. It permits such low intensity uses as hiking, hunting, trapping, fishing, canoeing, nature study, orienteering, horseback riding, and bicycling.”

In addition, the Pinelands comprehensive management plan, at N.J.A.C.7:50-5.24, sets forth minimum standards governing the distribution and intensity of development and land use in agricultural production areas. Agricultural production areas are areas of active agricultural use, generally upland field agriculture and row crops, including adjacent areas with soils suitable for expansion of agricultural operations. Certain residential and non-residential uses are allowed in these areas subject to specific conditions set forth in the comprehensive management plan. In addition, low intensity

recreational uses and the expansion of certain pre-existing intensive recreational uses may occur subject to certain conditions.

This bill would expand what qualifies as a low intensity recreational use, and would allow certain recreational activities, such as youth soccer, to qualify as a low intensity recreational use within an agricultural production area. In addition, the bill provides that a landowner engaging in, or allowing, a recreational use meeting the criteria set forth in the bill would not be in violation of any Pinelands development credit deed restriction related to allowable recreational uses on the lands.

COMMITTEE AMENDMENTS

The committee amendments:

- 1) clarify that the bill only concerns Pinelands development credit deed restrictions;
- 2) define that type of restriction; and
- 3) specify that the bill does not apply to other types of farmland preservation deed restrictions.

This bill, as amended by the committee, would provide that any final determination by a county agriculture development board (CADB) or the State Agriculture Development Committee (SADC) as to what qualifies as a farm-based recreational activity under the “Right to Farm Act” in the pinelands protection area would be binding upon the Pinelands Commission and constitute a permitted agricultural or horticultural use in the pinelands protection area. As amended and reported by the committee, this bill is identical to Senate Bill No. 2125 as also amended and reported by the committee.

The amendments also provide that “farm-based recreational

activity” includes field sports, as long as no permanent athletic fields are established on the land.

The amendments also provide that a landowner engaging in, or allowing, any farm-based recreational activity on land in the pinelands protection area cannot be deemed to be in violation of any deed restriction related to allowable uses on that land imposed in accordance with law, any rule or regulation adopted pursuant thereto, or any other government action.
