The commission shall, by regulation, establish such technical standards for licensure of slot machines, including mechanical and electrical reliability, security against tampering, the comprehensibility of wagering, and noise and light levels, as it may deem necessary to protect the player from fraud or deception and to insure the integrity of gaming. i. (Deleted by amendment, P.L.1991, c.182).

- j. (Deleted by amendment, P.L.1991, c.182).
- k. It shall be unlawful for any person to exchange or redeem chips for anything whatsoever, except for currency, negotiable personal checks, negotiable counter checks, other chips, coupons or complimentary vouchers distributed by the casino licensee, or, if authorized by regulation of the commission, a valid charge to a credit or debit card account. A casino licensee shall, upon the request of any person, redeem that licensee's gaming chips surrendered by that person in any amount over \$100 with a check drawn upon the licensee's account at any banking institution in this State and made payable to that person.
- l. It shall be unlawful for any casino licensee or its agents or employees to employ, contract with, or use any shill or barker to induce any person to enter a casino or simulcasting facility or play at any game or for any purpose whatsoever.
- m. It shall be unlawful for a dealer in any authorized game in which cards are dealt to deal cards by hand or other than from a device specifically designed for that purpose, unless otherwise permitted by the rules of the commission.
- It shall be unlawful for any casino key employee or any person who is required to hold a casino key employee license as a condition of employment or qualification to wager in any casino or simulcasting facility in this State, or any casino employee, other than a junket representative, bartender, waiter, waitress, or other casino employee who, in the judgment of the commission, is not directly involved with the conduct of gaming operations, to wager in a casino or simulcasting facility in the casino hotel in which the employee is employed or in any other casino or simulcasting facility in this State which is owned or operated by the same casino licensee. Any casino employee, other than a junket representative, bartender, waiter, waitress, or other casino employee who, in the judgment of the commission, is not directly involved with the conduct of gaming operations, must wait at least 30 days following the date that the employee either leaves employment with a casino licensee or is terminated from employment with a casino licensee before the employee may gamble in a casino or simulcasting facility in the casino hotel in which the employee was formerly employed

or in any other casino or simulcasting facility in this State which is owned or operated by the same casino licensee.

- o. (1) It shall be unlawful for any casino key employee or boxman, floorman, or any other casino employee who shall serve in a supervisory position to solicit or accept, and for any other casino employee to solicit, any tip or gratuity from any player or patron at the casino hotel or simulcasting facility where he is employed.
- (2) A dealer may accept tips or gratuities from a patron at the table at which such dealer is conducting play, subject to the provisions of this subsection. All such tips or gratuities shall be immediately deposited in a lockbox reserved for that purpose, accounted for, and placed in a pool for distribution pro rata among the dealers, with the distribution based upon the number of hours each dealer has worked, except that the commission may permit a separate pool to be established for dealers in the game of poker, or may permit tips or gratuities to be retained by individual dealers in the game of poker.
- p. Any slot system operator that offers an annuity jackpot shall secure the payment of such jackpot by establishing an annuity jackpot guarantee in accordance with the requirements of this act, P.L.1977, c.110 (C.5:12-1 et seq.), and the rules of the commission.

SENATE BUDGET AND APPROPRIATIONS COMMITTEE

STATEMENT TO

SENATE, No. 1463

with committee amendments

STATE OF NEW JERSEY

DATED: JUNE 9, 2008

The Senate Budget and Appropriations Committee reports favorably Senate Bill No. 1256, with committee amendments.

As amended by the committee, this bill provides that in the event that a state of emergency is declared due to the failure to enact a general appropriation law by the deadline prescribed in the New Jersey Constitution, casino and racetrack facilities may remain open for a period not to exceed seven calendar days, notwithstanding that inspectors, agents or other employees of the Casino Control Commission, the Division of Gaming Enforcement, and the New Jersey Racing Commission, as appropriate, are not performing the functions usually required for the operation of those facilities. The bill establishes various procedures and compliance requirements unique to casino and racetrack facility operations that would apply during the state of emergency.

As amended by the committee, and with respect to casino operations, the bill provides that in order to conduct casino and simulcasting operations during the state of emergency, a casino licensee must have in place various internal control procedures previously approved by the Casino Control Commission for the casino licensee and its employees to: (1) engage a certified public accountant approved by the commission, who will act in the capacity of the commission whenever the presence of an inspector, agent or employee of the commission or the division, as appropriate, is normally required to perform an activity including, but not limited to, the collection and counting of gross revenue; (2) record any activity that involves the participation of the certified public accountant; (3) document and provide evidence of tampering or cheating to the certified public accountant; (4) immediately report any violation of a statute or regulation to the casino licensee's chief legal officer, audit committee executive, and to the Governor, and to the commission when the state of emergency ceases; (5) withhold the payment of slot machine jackpots greater than \$75,000 until the state of emergency ceases; (6) staff the surveillance and casino security departments with at least one additional officer; and (7) receive complaints from the public

relating to the conduct of casino operations, among other internal control measures. A casino licensee would not be permitted to continue operations during the state of emergency without prior commission approval of its internal control measures and would be required to close in that event.

Furthermore, the bill prohibits a casino licensee from undertaking certain activities during the state of emergency, such as: (1) making any change that would require a surveillance camera pre-inspection by the commission; (2) amending or seeking to amend its operation certificate; (3) modifying the gaming floor configuration, computer system, or multi-casino progressive slot system; (4) adjusting the progressive meter of any slot machine; (5) conducting any gaming tournament; and (6) transferring property. The duration of the state of emergency would not be included in the calculation of the time period required for any action by the commission regarding a new or a pending application.

With respect to racetrack operations, including live and simulcast horse races, the bill as amended permits the continuation of horse racing in the State during the state of emergency, provided the racetrack permit holder and its employees comply with applicable rules and regulations promulgated by the New Jersey Racing Commission pursuant to the bill. The bill directs the commission to develop the necessary standards, criteria, safeguards, and procedures that the permit holder shall meet prior to, and as a condition of, continuing to conduct horse racing operations during the state of emergency.

With respect to both casino and racetrack operations, the bill provides that the casino licensee, the racetrack permit holder, and their respective employees, are required to continue to comply with all relevant provisions of the New Jersey Constitution and all relevant State statutes and regulations, and to maintain detailed records of that compliance. In addition, the bill gives the Governor the authority to summarily suspend the license of any casino, racetrack, or of any licensed employee thereof, if the Governor determines that a violation of any State statute or regulation governing the operation of those facilities which would normally result in such license suspension may have occurred. The suspension would continue until it is rescinded by the Governor or the state of emergency ceases and the Casino Control Commission, Division of Gaming Enforcement, or the New Jersey Racing Commission, as appropriate, is able to address the matter.

Also, the bill provides that any violation of a statute or regulation that would ordinarily subject a casino licensee, racetrack permit holder, or a licensed employee to a fine, but which is not reported as required in the bill, is punishable by a fine of no less than five times and up to ten times the amount of the usual fine. When the state of emergency ceases, casino licensees and racetrack permit holders will be responsible for any costs associated with re-implementing onsite State inspections.

COMMITTEE AMENDMENTS:

The committee amendments:

- (1) Require the casino licensee, upon Casino Control Commission approval, to adopt procedures for the orderly shutdown of casino operations in the event the state of emergency extends for more than seven days, or the casino licensee is not authorized to conduct operations during the state of emergency;
- (2) Require the casino licensee, upon Casino Control Commission approval, to adopt internal control procedures to be effective during the state of emergency, for the licensee to:
 - engage a certified public accountant approved by the commission, who will act in the capacity of the commission whenever the presence of an inspector, agent or employee of the commission or the division, as appropriate, is normally required to perform an activity including, but not limited to, the collection and counting of gross revenue;
 - record any activity that involves the participation of the certified public accountant;
 - document and provide evidence of tampering or cheating to the certified public accountant;
 - immediately report any violation of a statute or regulation to the casino licensee's chief legal officer, audit committee executive, and to the Governor, and to the commission when the state of emergency ceases;
 - withhold the payment of slot machine jackpots greater than \$75,000 until the state of emergency ceases;
 - staff the surveillance and casino security departments with at least one additional officer; and
 - receive complaints from the public relating to the conduct of casino operations, among other internal control measures;
- (3) Authorize the Casino Control Commission to give temporary custody of its key to a certified public accountant approved by the commission, who will act in the capacity of the commission in accordance with approved internal control procedures;
- (4) Prohibit a casino licensee from undertaking certain activities during the state of emergency;
- (5) Permit racetracks to continue live and simulcast horse racing operations during the state of emergency, provided the racetrack permit holder and its employees comply with applicable rules and regulations promulgated by the New Jersey Racing Commission, and authorizes the commission to promulgate the necessary rules and regulations.

FISCAL IMPACT:

This bill is not certified for a fiscal note.

GOVERNOR SIGNS LEGISLATION TO KEEP CASINOS OPEN

Atlantic City - Governor Jon S. Corzine today signed legislation that will enable casinos and racetracks to remain open under certain conditions in the event a government shutdown occurs due to the failure to enact a state budget.

"It is critical that the casino industry in Atlantic City not live under the threat of government shutdown like it did in 2006," said Governor Corzine. "This bill ensures that the industry will remain open regardless of the status of state budget negotiations. Keeping the casinos up and running is critical for Atlantic City, for its hard-working employees, for the region and for the New Jersey economy."

The bill, S1463/A2410, also establishes various procedures and compliance requirements unique to casino and racetrack facility operations that would apply during the state of emergency.

"The 4th of July weekend is primetime for Atlantic City's economy, with visitors pumping in millions of dollars into hotels, restaurants and casinos in the resort," said Senator Jim Whelan (D-Atlantic). "Not only do casino operators rely on the economic activity over the holiday weekend, but dealers, hotel and restaurant employees, support staff, and a whole host of workers in related industries depend upon every penny earned in the busy July month. Under this new law, Atlantic City's economy will no longer be subject to hijacking based on budget stalemates in Trenton."

"New Jersey's casino and racetrack employees should never have to fear that a squabble in Trenton will leave them unprotected," said Assemblyman John J. Burzichelli (D-Gloucester), chair of the Assembly Gaming and Tourism Committee. "Our casinos and racetracks are too valuable to the economy to be left dangling in the crosshairs. Casino and racetrack operators know the rules

and should be given the benefit of the doubt that they can carry on business in the unlikely event of a state shutdown."

Sponsors of the bill include Senator Jim Whelan (D-Atlantic); Senator John A. Girgenti (D-Bergen and Passaic); Assemblyman John J. Burzichelli (D-Salem, Cumberland and Gloucester); Assemblyman Ronald S. Dancer (R-Burlington, Mercer, Monmouth and Ocean) and Assemblyman Paul D. Moriarity (D-Camden and Gloucester).
